EXECUTIVE SUMMARY	
CHAPTER ONE	
1. INTRODUCTION	
1.1. Overview of the County	
1.1.1. Location and Size	
1.1.2. Demographics, Administrative and Political Units	
1.1.3. Social-Economic Profile	
1.1.4. Environment and Natural Conditions	26
1.2. RATIONALE FOR PREPARATION OF ADP	
1.3. CADP LINKAGES WITH THE CIDP (2023-2027) AND OTHER PLANS	
1.4. Preparation Process of the Annual Development Plan	29
CHAPTER TWO	30
2. REVIEW OF THE IMPLEMENTATION OF THE PREVIOUS ADP	30
2.1. Introduction	30
2.2. Analysis of County Revenue	30
2.2.1. County Revenue Sources	30
2.2.2. Analysis of Own Source Revenue for the Financial Year 2020/2021	
2.3. COUNTY BUDGET EXPENDITURE ANALYSIS	
2.4. SECTOR PERFORMANCE FOR THE FINANCIAL YEAR 2021-2022	
2.4.1. Public Service and Administration Sector	
2.4.2. Finance, IT and Economic Planning Department	
2.4.3. Education, Youth, Sports, Culture and Social Services	
2.4.5. Trade, Tourism, Investment, Agri-business and Cooperatives	
2.4.6. Environment and Climate Change	
2.4.7. Land, Housing and Urban Development	
2.4.8. Roads, Transport, Energy and Public Works	
2.4.9. Agriculture, Livestock and Fisheries	
2.4.10. Water and Irrigation	
2.5. Payments of Grants, Benefits and Subsidies	132
CHAPTER THREE	133
3. COUNTY STRATEGIC PRIORITIES, PROGRAMMES AND PROJECTS	133
3.1. Overview of the Chapter	133
3.2. Public Administration and ICT	

3.2.1.	Public Administration and Coordination Directorate	133
3.2.2.	Enforcement	136
3.2.3.	Fire and Disaster Sub Sector	138
3.2.4.	Information Communication Technology and Public Communication	141
3.2.5.	Human Resource	
3.2.6.	Internal Audit	150
3.2.7.	Public Service Board	152
3.3. FINA	nce and Economic Planning	155
3.3.1.	Governors Delivery Unit	155
3.3.2.	Finance	155
3.3.3.	Economic Planning	158
3.3.4.	Monitoring and Evaluation	
3.3.5.	Revenue	
3.3.6.	Budget and Fiscal Affairs	168
3.4. AGRI	culture, Livestock and Fisheries	
3.4.1.	Agriculture (Crops)	170
3.4.2.	Livestock Development	
3.4.3.	Veterinary Services	
3.4.4.	Fisheries	181
3.4.5.	Agribusiness, Value Addition, Marketing and Agro Small Micro Enterp	rise
Agricul	tural Marketing	
O	Value Chain	
3.4.7.	Coffee Development	
3.4.8.	KATC Mariira Farm	
3.5. R OAI	os, Housing and Infrastructure	203
3.5.1.		
3.5.2.	Sector Priorities and Strategies	
3.5.3.	Sector Programmes	
3.5.4.	Sector Capital Projects	
	DE, INDUSTRIALIZATION, TOURISM AND COOPERATIVE DEVELOPMENT	
	Trade, Industry and Investment	
3.6.2.		
3.6.3.	Cooperatives Development	
	TH AND SANITATION	
3.7.1.	Sector Vision, Mission and Goals	
3.7.2.	Sector Priorities and Strategies	
3.7.3.	Sector Programmes	
3.7.4.	<u> </u>	
	os, Physical Planning and Urban Development	
3.8.1.	Lands, Physical Planning and Urban Development

Glossary of Commonly used Terms

Baseline	An analysis describing the initial state of an indicator before the start of a project or programme, against which progress can be assessed or
	, , , , , , , , , , , , , , , , , , , ,
Caustal Duais sta	comparisons made
Capital Projects	For the purpose of this plan guidelines, capital projects should be
	termed as those projects that help in improving or maintaining county
	asset. Such projects may include new constructions, expansion, and
	renovation of county facilities across all sectors. As per the Public
	Investment Management Guidelines of the PFM Act, 2012, capital
	projects should be classified into one of the following four categories
Cross-sectoral	Measures to harness cross-sector synergies and mitigate adverse cross-
Implementation	sectoral implementation impacts of projects where necessary.
Considerations	
Demographic	Demographic dividend is the accelerated economic growth that may
Dividend	result from a decline in a country's mortality and fertility and the
	subsequent change in the age structure of the population.
Flagship/	Projects with high impact in terms of employment creation, increasing
Transformative	institutional competitiveness or revenue generation.
Projects	
Green	Economy that aims at reducing environmental risks and ecological
Economy	scarcities, and whose objective is to ensure sustainable development
,	without environment degradation
Indicator	A sign of progress /change that result from an intervention. It measures
	a change in a situation or condition and confirms progress towards
	achievement of a specific result. It is used to measure a project impact,
	outcomes, outputs and inputs that are monitored during project
	implementation to assess progress
Medium term	A span of between three and five years
Outcome	Results generated relative to the objective of an intervention. It
	describes the actual change in conditions/situation as a result of an
	intervention output(s)
Output	Immediate result from conducting an activity i.e., goods and services
1	produced
Programme	A grouping of similar projects and/or services performed by a
G	department or agency to achieve a specific objective
Project	A set of coordinated activities implemented to meet specific objectives
	within defined time, cost and performance parameters. Projects aimed
	at achieving a common goal form a programme.
Sector	Composition of departments that are grouped together according to
	services and products they offer/ provide. These departments
	produce/offer similar related product/services. They also share
	common or related operating environment
Target	Planned level of an indicator achievement
O - •	1

Foreword

The Fourth Schedule of the Kenya Constitution 2010 apportions government functions between the national and county governments. The broad long term national and county planning objectives are geared towards the realization of the goals under the Kenya Vision 2030. The Vision 2030 is implemented through the five-year Medium-Term Plans (MTPs), with the current one being MTP IV for the 2023-2027 plan period. At the County level, the MTPs are also implemented under the five-year County Integrated Development Plans (CIDPs), with the current one being the third County Integrated Development Plan for the 2023-2027 plan period.

The Annual Development Plan (ADP) plan process is well synchronized with the Medium-Term Expenditure Framework of the Government to ensure rationalization of budgetary allocations. The basis for the preparation of the Annual Development Plan (ADP) is stipulated under Article 220 (2) of the Constitution of Kenya 2010, sections 104 to 108 of the County Governments Act and section 126 (1) of the Public Finance Management Act. With an overarching objective of transformation within the public expenditure management framework, the plan provides a framework for prudent allocation of resources to various county development sectors.

With a central focus of enhancing public service delivery, the plan underscores the primary responsibility of meeting the socio-economic development aspirations of Murang'a County through improved governance, higher living standards, equality, and an enabling environment for the private sector.

The preparation of the ADP was cognizant of the fact that Murang'a's most valuable asset is her entrepreneurial human resource. The ADP focuses on the mobilization of the human capital, financial and technical resources in partnership with stakeholders. In this regard, the Murang'a County Government shall work with all relevant stakeholders to implement the ADP. This endeavor will be attained through our memorable clarion call "Kamuingi Koyaga Ndiri" (Unity is Strength).

Prof. Kiarie Mwaura

CECM, Finance and Economic Planning

Acknowledgements

This Annual Development Plan for the Financial Year 2023/2024 seeks to implement the priorities of the Murang'a County during the first year of the 3rd County Integrated Development Plan (2023-2027). The ADP preparation process captured the County's transformative agenda across all the sectors of Muranga'a County.

The preparation of this ADP involved stakeholders through consultative meetings and workshops. The process was spearheaded by the Economic Planning Directorate and involved technical officers from all departments. The process also involved stakeholders from various groups and organisations, including community opinion leaders, administrative leaders, religious leaders as well as the civil society. We recognise the enormous effort and sacrifice of the public and the many stakeholders.

Most specially, the County is indebted to the proactive leadership of the Governor, H.E. Dr. Irungu Kangata, the Deputy Governor, H.E. Stephen Munania and the County Assembly of Murang'a County for their input and support during the exercise. I would also like to thank the CECM Finance & Economic Planning, Prof. Kiarie Mwaura, County Executive Committee Members, Chief Officers, Directors and Heads of County Agencies for their able leadership and contributions during this noble exercise.

Special mention goes to the Economic Planning Directorate under the stewardship of Ag. Director, Mr. Stephen Mwangi, Senior Stastitician Justin Gatuita, Economists Walter Ojwang, Gabriel Wachira, Njuguna Mwangi, Claire Njogu, Judith Mwaniki, Ann Njoroge and Ann Kamau. Finally, let me take the opportunity to acknowledge each and every person who contributed towards the successful preparation of the ADP 2023/2024 in one way or the other. Your efforts will no doubt leave an indelible mark in the socio-economic development of Murang'a County.

P. G. Kahora, Chief Officer, Finance and Economic Planning, Murang'a County Government.

Executive Summary

The County Annual Development Plan for the financial year 2023/2024 provides the basis for and marks the first year of implementation of the Third generation CIDP (2023-2027). It provides a road- map for implementing county projects, programmes and initiatives for each department and thus guides resource allocation to priority projects and programmes as identified in the CIDP (2023-2027).

The process of identifying and prioritizing the projects and programmes to be implemented over the next financial year (2023/2024) involved all stakeholders through participatory workshops and engagements. Through this process, the efforts at national and devolved levels of government and other relevant public institutions were coordinated at local level with due consideration to the economic, social, environmental, legal and spatial aspects of development for the benefit of local communities. References were made to the provisions of the County Government Act, (2012); Urban Areas and Cities Act, 2011; and the Public Finance Management Act (PFMA), 2012. In addition, the plan preparation process considered provisions in various legislation, including the Constitution of Kenya, 2010, National Government Coordination Act, 2013, among others.

The agricultural sector targets to modernize production and market accessibility of major crops that include tea, coffee, avocado, mangoes, macadamia and horticulture crops. In the education sector, the county targets to scale up the school feeding programme, improve the existing education infrastructure and prioritize education subsidy through bursaries and scholarships. In the heath sector, the County will prioritize adequate infrastructure within the 272 health facilities. The County will also scale up the universal health cover for the vulnerable groups and establish model health facilities.

Chapter one gives a brief overview of the County in regards to location; size; demographic profiles; administrative and political units of the County. It also highlights the socio-economic and infrastructural information that has a bearing on the development of the County. It also provides the rationale and the process for preparation of the Annual Development Plan (ADP).

The second chapter provides a summary of what was planned versus what was achieved by various sectors/sub sectors. The section indicates the overall budget in the Annual Development Plan (ADP) versus the actual allocation and expenditures as per sector/sub-sector. It also provides challenges, lessons learnt and recommendations.

Chapter three provides a summary of the financial year 2023/24 plans, which include key broad priorities of projects, programmes, performance indicators and mainstreaming of cross-cutting issues, such as climate change, green economy, disaster risk management (DRM), HIV/AIDs; gender, youth, and persons with disability (PWD). It also presents

proposed interventions for stimulating the economy to safeguard livelihoods, jobs and businesses in the post-Covid-19 pandemic.

Chapter four presents a summary of the resource requirements based on sector /sub sector programmes. It provides a description of how the county will respond to the financial and economic environment while also identifying the risks, assumptions and corresponding mitigation measures during the plan period.

Finally, chapter five provides an overview of the county's monitoring and evaluation framework, which forms part of the results culture in the county public service. The framework will ensure that intended targets are achieved, remedies are taken when projects are off-track, and that lessons learned are used to promote efficiency and effectiveness.

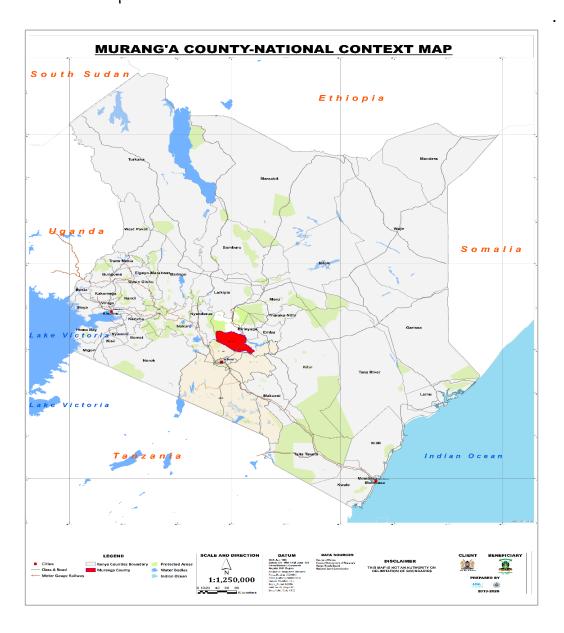

CHAPTER ONE

1. INTRODUCTION

1.1. Overview of the County

1.1.1. Location and Size

Murang'a County is in the central region of Kenya. The county lies between latitudes 0° 34'; 1°7'South and Longitudes 36°; 37° 27' East and covers a total area of 2,558.96Km². The County borders Nyeri to the North, Kiambu to the South, Nyandarua to the West and Kirinyaga, Embu and Machakos counties to the East as shown in Map 1.1.

Map 1.1: Location of the Murang'a County in Kenya

1.1.2. Demographics, Administrative and Political Units

1.1.2.1. Demographics

As per the KNBS Population and Housing Census, Murang'a County's population stood at 1,056,640 persons in 2019. With a population growth rate of 1.2 percent per annum, this population is projected to rise to 1,108,594 in 2023 and 1,121,977 persons in 2024. The population consisted of 523,940 Male and 532,669 females with male-female sex ratio of 98 males against 100 females.

The most populated sub-counties are Murang'a South and Kandara with a population of about 184,824 and 175,098 people respectively. Other than those people living in the Aberdares Forest (Forest guards and families), Ithanga had the lowest population of 58,146 people with that population projected to grow to 61,741 persons by 2024.

The County average population density is 413 and is projected at 433 persons per square km (2023) and is expected to grow to 434 and 444 persons per square Km by the year 2024 and 2025 respectively. The most densely populated sub-county as per the 2023 population projections is Kandara at 742 persons per square km while Ithanga sub-county is the least at 214 persons per square Km. In the year 2024, it is projected that Kandara sub-county population density would be 788 persons per square km while Ithanga Sub-County will grow to 216 persons per square Km as shown in Table 1.1.

Table 1.1: Population Projections (by Sub-County and Population Density)

Sub-County	ounty 2019 (Census)			2022 (Pro	ojection)	2023 (Pro	jection)	2024 (Pro	ojection)	2025 (Projection)

1.1.2.2. Population Projections by Age Cohort

According to the 2019 population census, the Age Cohort between 5-9 and 10-14 age groups have the largest populations of 114,251 and 117,758 respectively (see Figure 1.1 and Table 1.2). The population was in 2022 estimated at 118,439 and 122,074 respectively. The same trend if maintained implies that the population will be expected to grow to 119,869 and 123,548 by the year 2023 and 121,316 and 125,040 in the year 2024. Noteworthy too is that the highest population is within the 15 -49 years' age bracket implying that the focus of socio-economic development must pay special attention to this age bracket.

1.1.2.3. Administrative (Sub-Counties, Divisions, Locations)

The County is divided into nine (9) sub-counties, namely: Gatanga, Ithanga, Kahuro, Kandara, Kangema, Kigumo, Mathioya, Murang'a East and Murang'a South. Table 1.3 illustrate the administrative units, the land area, number of divisions, the number of locations, and number of sub-locations in each sub-county.

Table 1.3: Area (Km²) by Sub-County

1.1.3. Social-Economic Profile

According to the KNBS GCP 2019, Murang'a County contributes 2.3 % to the National GDP. The main economic activity of the county is agriculture. Most residents (80%) practice food crop farming (maize and bananas) majorly in the lowlands, cash crop farming (tea and coffee) mainly in the highlands, livestock rearing and dairy farming are also prominent in the county. The county has minimal mining activities, such as quarrying. Quarrying activities include: sand harvesting; excavation of building

blocks and ballast; and extraction of clay soil for brick making and pottery. The main tourist attraction sites in the county are the Aberdares National Park and cultural heritage sites, such as the Mukurwe wa Nyagathanga and Karia Ka Mbari ya Ngware, that are historical origins of the Agikuyu people. Majority of residents belong to the mainstream christian denominations.

1.1.4. Environment and Natural Conditions

The climatic conditions of the county consist of the western region with an equatorial type of climate, the central region with a sub-tropical climate, and the eastern part with semi-arid conditions. The eastern region, covering the lower parts of Kigumo, Kandara, Kiharu and Maragua constituencies, receive less rain and, therefore, require consistent irrigation. Long rains fall in the months of March, April and May, with April recording the highest amount of rainfall which averages 213 mm. The short rains are in October and November and they average about 135 mm. February is the driest month with 21 mm of rainfall. The Western region, covering Kangema, Gatanga, and higher parts of Kigumo and Kandara, is generally wet and humid due to its proximity to the Aberdares Ranges and Mt. Kenya.

Rainfall in western and central regions is reliable and well distributed throughout the year, a factor that favours crop cultivation. The main production activities, include: tea, coffee, maize, potatoes, and rearing of improved dairy cattle which form the most common sources of basic household food consumption and income. In the eastern areas, the annual temperature ranges between 26 and 30 degrees Celsius while the mean minimum annual temperature range between 14 and 18 degrees Celsius. In the western wetter and colder areas, the mean minimum annual temperatures can be as low as 6 degrees Celsius or less. The temperatures in the central region fall between the maximum and minimum and maximum annual mean temperatures. Some areas also experience natural catastrophes such as landslides.

The highest areas form the rain catchment areas from where most of rivers draining the county originate. The terrain is dissected creating the menace of landslides and gulley erosion. The numerous streams and valleys necessitate the construction of bridges to connect one ridge to the other; a factor that makes construction and maintenance of roads difficult and expensive. Volcanic soils are generally fertile, making them suitable for tea growing.

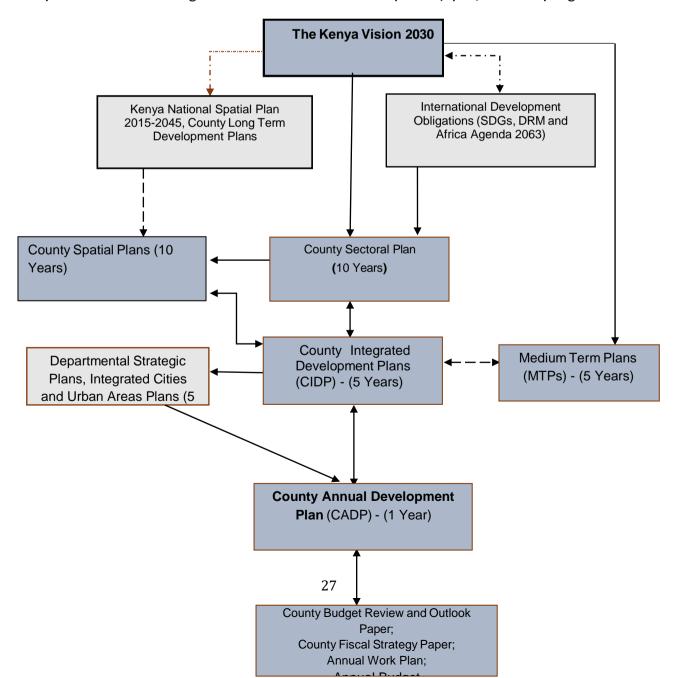

1.2. Rationale for Preparation of ADP

Under sections 104 and 105 of the the County Government Act 2012, County Governments are mandated to, among other functions, prepare integrated development plans; ensure integrated planning within the county and ensure linkages between county plans and the national planning framework. The County

Government Act 2012 further outlines the county planning framework which provides for the preparation of four kinds of plans; Sectoral Plans, Spatial Plans, CIDP and the Cities and Urban Areas Plans. Section 126 (1) of the Public Finance Management (PFM) Act 2012 mandates county governments to prepare Annual Development Plan (ADP) in accordance with Article 220 (2) of the Constitution. The ADP, which is submitted for approval to the County Assembly not later than 1st September of each year, documents strategic priorities for the medium term (5 years) that reflect the county government's priorities and plans; county programmes and projects to be delivered; measurable indicators of performance where feasible; and the budget allocated to the programmes and projects.

1.3. CADP Linkages with the CIDP (2023-2027) and other Plans

The Annual Development Plan for the financial year 2023/2024 marks the first year of implementation of the third generation CIDP (2023-2027). It provides a road map for implementation of county projects, programmes, and initiatives for each department and, thus, guides resource allocation to priority projects and programmes

as as shown in the Figure 1.1.

Figure 1.2.: Linkage of CADP with CIDP, Other Plans and International Obligation.

1.4. Preparation Process of the Annual Development Plan

The preparation of the Murang'a County Annual Development Plan (2023/2024) followed the guidelines issued by the State Department for Pllaning of the National Treasury. To prepare the plan, a variety of data generation methodologies were utillised, including: document review, focused group discussions, field visits, and key informant interviews. Data from the monitoring and evaluation exercises also formed an integral part of the data collection process, as it provided an avenue for direct observations, assessment, and data recording at source.

For prioritization of programmes for 2023/2024, data collection templates were developed in accordance with the M&E Plan and the same was populated by county departments. The information was then presented to the sector working groups for the purpose of giving technical input. Finally, through various fora, the public was accorded the opportunity to express opinions.

CHAPTER TWO

2. REVIEW OF THE IMPLEMENTATION OF THE PREVIOUS ADP

2.1. Introduction

This chapter reviews implementation of the County Annual Development Plan (2021-2022) and documents the sector-specific achievements. It examines the implementation of sector-specific programmes and sub programmes. It highlights the challenges that were encountered during the implementation and draws lessons and recommendations to be instituted during the implementation of future programmes, sub programmes and projects. The Chapter also highlights the payment of grants, subsidies and benefits to vulnerable groups.

2.2. Analysis of County Revenue

2.2.1. County Revenue Sources

The County has three broad sources of revenue, namely: the national sharable revenue comprising equitable share as per the Commission on Revenue Allocation (CRA); conditional grants and loans; and own source revenue.

The Murang'a County Government equitable share has been on a steady increase. It was KES 6.25 billion in 2018/2019, KES 6.68 billion in 2019/2020, KES 6.46 billion in 2020/2021, KES 7.18 billion in 2021/2022, and KES 7.18 billion in 2022/2023 as indicated in Table 2.1

Table 2.1: Analysis of County Revenue Sources

Revenue Source	2018/2019		2019/2020		2020/2021		2021/2022		2022/2023	
	Estimated (Kshs. M)	Actual (Kshs. M)	Estimated (Kshs M)	Actual (Kshs. M)	Estimated (Kshs. M)	Actual (Kshs. M)	Estimated (Kshs M)	Actual (Kshs. M)	Estimated (Kshs. M)	Budgeted (Kshs. M)

2.3. County Budget Expenditure Analysis

The analysis of budget allocation and expenditure for FY 2021-2022 shows that the health department was allocated the bulk of the budget being KES 4,595,380,000. Agriculture, Livestock and Fisheries was allocated KES 1,187,330,000 in the second place. On the other hand, Environment and Climate Change and Public Service Board were allocated the least amounts being KES 44,590,000 and 43,720,00 respectively.

In terms of expenditure, Public Service Administration recorded the highest budget absorption rate at 94.74 per cent while Environment & Climate Change recorded the least absorption rate of the budget at 17.04 per cent. The Health and Sanitation sector accounted for 49.69 per cent of the total County expenditure. The analysis is shown in Table 2.3.:

Table 2.3: County Sector Approved budget and Expenditure Analysis

Sector Name	Total Budget Allocation (Kshs. M)	Total Actual Expenditure (Kshs. M)	Variance	Absorption rate (%)

2.4. Sector Performance for the Financial Year 2021-2022

2.4.1. Public Service and Administration Sector

During the financial year 2021-2022, the Public Service and Administration priorities included: seamless administration and sectoral coordination, public services that entail performance evaluation, project coordination, performance management as well as enhanced compliance through internal audit function. This information is summarized in Table 2.4.

The following were the key achievements, challenges, lessons learnt and recommendations during the financial year 2021-2022:

Key Achievements

Administration and Coordination Directorate coordinated ten departments at the county headquarters and at the sub-county level; developed the organizational structure and set up and operationalized the Office of the County Attorney; Through the Fire and Disaster Management Division, it responded to all reported fire and disaster emergencies; sensitized public, business premises, firms and learning institutions on fire and disaster management; conducted external and on-job trainings; acquired a new fire engine GKB 420W; and recruited 100 additional enforcement officers;

The Human Resource Directorate appraised and classified 50% of the existing records and trained 11 records Management officers; networked six human resource offices with the IPPD system; and trained ten officers on the Unified Payroll system. The Performance Management Unit reviewed and rolled out a new staff performance appraisal management tool; trained 3000 employees on performance management; developed draft policies: Training Policy, Records Management Policy, Occupational Health and Safety Policy, Performance Management Policy, Strategic Human Resource Plan; reviewed ten departmental structures and staffing plans; and conducted a staff skills audit.

During the plan period, the Public Service Board drafted HR policies and met ten departmental requests for recruitment and, thus, established adequate work force in the county public service.

On the other hand, the internal Audit Section trained Internal audit staff on relevant skills; and established and operationalized the Audit Committee.

Sector Challenges

During the plan period, Fire Services Section experienced challenges, which included: hindrance to implementation of various activities due to Covid-19 pandemic; inadequate budgetary allocation; inadequate facilitation for office equipment and stationery; insufficient rescue equipment and protective equipment, such as rope rescue and emergency medical gears; and inadequate fire stations in the county.

The Human Resource Directorate experienced inadequate budgetary allocation; inadequate office space; and Covid 19 pandemic challenges, which hindered implementation of various activities;

Project Coordination, Monitoring and Evaluation Directorate faced challenges, such as: inadequate technical capacity on monitoring and evaluation; inadequate facilitation of the M&E function; lack of clarity on whether the Project Coordination, Monitoring and Evaluation Directorate in should be domiciled in Administration or Economic Planning Directorate.

The PSB experienced operational challenges that included: inadequate human resource policies; and lack of compliance with the NCIC guidelines on staffing diversity.

The Internal Audit Section experienced challenges in evaluating the adequacy and reliability of information available for decision making; lack of a risk management profile; inadequate budgetary allocation; and high turnover of staff.

Lessons Learnt and Recommendations

Administration

The lessons learnt include:

There is a need for adequate preparedness for unforeseen emergencies, such as the Covid-19 pandemic

There is a need for well-coordinated channels of communication

A well-defined organizational structure enhances performance

Human Resource

The lessons learnt include:

- a) The need for adequate disaster/pandemic preparedness;
- b) The need for well-coordinated channels of communication;
- c) Devolved services should be decentralized to the ward level;
- d) There is a need to develop and implement structured systems;

Project Coordination, Monitoring and Evaluation

The lessons learnt include:

- a) Inculcation of M&E culture across the departments/directorates enhances performance.
- b) The Monitoring, Evaluation, Learning and Reporting function should be linked to the economic planning function of the county.

Public Service Board

The lessons learnt include:

- a) Adequate planning and funding are needed for the purpose of disaster and pandemic preparedness
- b) Succession planning should be prioritised
- c) Timely disbursement of funds is key to performance

2.4.2. Finance, IT and Economic Planning Department

Key Achievements

The department achieved the following sub-sector specific milestones as shown is Table 2.5.

Information Communication Technology

The sector achieved the following:

- a) A Local Area Network was installed in all eight sub-county offices which were also connected with 5Mbps internet to facilitate the implementation of a Revenue Management System.
- b) A bulk SMS platform was acquired to enable easy communication with the public across the County.
- c) The resource centre program was started in 2018 to provide the youth with access to internet in all sub counties. The program had been implemented to the level of acquisition of office space, and construction of some workstations in Kiharu Sub County after the Ministry of Information Communications and Technology gave approval for the resource centre to be housed at their premises.
- d) The Murang'a County website was designed to enhance public communication. Through the website, the public can access the latest vacancies, tenders, all public documents, and follow up on county events and projects. In 2022, it was revamped to make it more interactive to better serve the needs of the public.

Finance Directorate

During the Plan Period, the Directorate steered the planning, resource allocation and utilization to all the functions of the County

Economic Planning Directorate

The Planning Directorate met timelines for preparing and submission of requisite planning documents, including: County Annual Development Plan, the Quarterly County Annual Progress Reports (C-APR), Financial and Non-financial Reports to the Office of the Controller of Budget (OCOB); County Budget Review Outlook Paper, County Fiscal Strategy Paper, Budget Estimates; provided technical support to other departments and donor-funded programmes, such as KDSP, KUSP, NARIGP, ASDSP; and regularly updated the county statistical data.

Revenue Directorate

The revenue section was able to reverse the decreasing trend of own source revenue which at the start of the planning period only stood at 50.5% of the projected revenue.

Table 2.6: Sector Programmes Performance – Finance, IT & Economic Planning

Sub Sector: Economic Planning									
Office Rehabilitation	Improved working environment	Rehabilitated economic planning unit	Overhaul renovation of economic planning unit	Nil	3m	0	MCG		

Sector Challenges

The sector experienced the following sub-sector specific challenges

Information Communication Technology

- a) Inadequate facilities and equipment both in IT and Public Communication.
- b) Lack of harmonization from the ICT Authority to guide ICT and public communication operations across all counties.
- c) Lack of office space and related infrastructure, especially in sub counties.

Finance

- a) Low absorption of development funds
- b) High wage bill
- c) High level of pending bills
- d) Use of manual payroll
- e) Inadequate supervision of projects and programmes being implemented
- f) Inadequate facilities and office space

Economic Planning

- a) Late submission of departmental inputs for incorporation into various statutory timed reports
- b) Insufficient funding and facilitation
- c) Weak M&E structure to track the implementation of planned activities.
- d) County Integrated Monitoring and Evaluation System (CIMES) not operational

Revenue

- a) Irregular review of the County Finance Act
- b) Minimal Support from Management;
- c) Enforcement challenge; the enforcement section is domiciled within the Department of Administration, creating a problem of line of command.
- d) Non-automation of revenue management;
- e) Inadequate training of revenue staff;
- f) Political Interference;

Lessons Learnt and Recommendations

The sub-sector specific lessons learnt and recommendations included:

Information Communication Technology

There is a need to sensitize staff and the top management on ICT since it is vital in efficiency delivery of county services.

Finance

There is need for effective resource matching of approved and budgeted county priorities.

Economic Planning

There is a need to create a resource mobilization unit to be domiciled under the Economic Planning Directorate.

Revenue

Management support is very crucial in revenue mobilization, review of the County Finance Act every year would have gone a long way in enhancing revenue. Embracing modern methods of revenue mobilization, including undertaking a valuation roll, would have sparked a rise in local revenue enhancement as witnessed in other counties.

2.4.3. Education, Youth, Sports, Culture and Social Services

Key Achievements

The Sector achieved the following sub-sector specific milestones as shown is Table 2.6.

ECDE Directorate

The Directorate raised ECDE enrolment through the feeding programe, free ECDE tuition, employment of ECDE teachers, provision of T/L and play materials; and improved monitoring and assessment. It also attained 99% transition of pre-school learners from ECDE to primary education; constructed 5 classrooms and 12 toilets, and renovated 1 ECDE centre with 2 classrooms, an office, 6 double toilets and a urinal; provided scholarship fund for more than 1000 bright and needy students.

Vocational Training

The Directorate of Vocational Training facilitated 65 VTCs to receive capitation from the national government; renovated and rehabilitated 36 VTCs to improve training environment; graduated more than 1700 trainee graduates, employed instructors to improve vocational training and established 5 new VTCs.

Youth Development

- a) Trained 800 youths on access to government procurement opportunities (AGPO)
- b) Trained and linked 20 youth owned SMEs on access to youth funds
- c) Engaged 1,200 youths in direct labour (construction of MCC, ICU, Mumbi and Ihura stadium)
- d) Provided 2,000 boda-boda riders with licenses, reflector jackets and umbrellas

Sports

The Sports Directorate completed stadia development at Ihura Stadium and Mumbi Stadium that entailed construction of a perimeter wall, gate installation, installation of pop-up irrigation system and levelling of the football pitch. It also organized under-18 cricket tournament at Kimorori Playground, Taekwondo youth tournament at Kiharu grounds, cross country championship at Gakoigo Stadium, and KICOSCA games that produced and presented a national and an international team. In addition to this, it also acquired and distributed assorted equipment to 400 football and 50 volleyball teams

Culture

The Culture Directorate pparticipated in the Participated in the Kenya music and cultural festivals both at the county and national levels; held community cultural festivals; held 50 Capacity building workshops for cultural practitioners; mapped 10 cultural sites and monuments (heritage sites); promoted natural health products where 7 samples were sent to Primates Research Institute for clinical testing and analysis to counter covid-19; endorsed registration of cultural groups, artists, herbalists and other cultural practitioners; and 5 herbalists and 10 young champions were trained on Natural Products Industry.

Social Services

The Directorate distributed 280 wheelchairs, 30 walking frames, and 20 clutches to people living with disability. Also, 150 children were rescued and placed in children's homes where they are safe and have access to education, shelter, clothing and food. In addition, two toilets were constructed, one at Koimbi children's home while the other was constructed together with a kitchen at Kandara children's home. Seven hundred self-help groups were registered, while 2000-self-help groups have been empowered and trained. On gender mainstreaming, the number of women in top leadership position was 9 out of the 46 positions, which translate to 19%. However, there was an improvement to 26% of woman in leadership positions within Murang'a County.

Sector Challenges

ECDE Directorate

These challenges include:

- a) Inadequate budgetary allocation to the directorate
- b) Shortage of teachers
- c) Poor and dilapidated infrastructure
- d) Inadequate and proper teaching and learning materials
- e) Inadequate play and rest materials

Vocational Training

These challenges include:

- a) Lack of adequate funds
- b) Delay in disbursement of funds
- c) Negative perception of VTCs by some quarters of the society
- d) Inadequate tools and equipment for skills development
- e) Poor state of infrastructure i.e., old classrooms, toilets, workshops
- f) Outdated curriculum in some programmes, such as motor vehicle mechanics
- g) Lack of capacity building of officers in the directorate

Youth Development

These challenges include:

- a) Rampant use of drugs and substance abuse amongst the youth
- b) Apathy in accessing available opportunities offered by the government
- c) Over reliance on handouts and external support
- d) Limited recognition of youth innovations
- e) Increase in mental health breakdown due to hopelessness
- f) Negative social media impact

Sports

These challenges include:

- a) Inadequate budgetary allocation
- b) Inadequate technical staff in the department
- c) Weak Intersectoral coordination in project development and management

Culture

These challenges include:

- a) Financial constraints
- b) Inadequate staffing

Social Services

These challenges include:

- a) Inadequate funding
- b) Gender-based violence
- c) Reported cases of child trafficking, abduction, kidnapping, and physical abuse

Lessons Learnt

ECDE

These lessons learnt include:

- a) Determine needs from the ground
- b) Involve the community in service delivery
- c) Carry out a needs assessment and public participation
- d) Involve stakeholders in service delivery
- e) Regular assessment of the progress of any project or service is necessary

Vocational Training

These lessons learnt include:

- a) Create awareness to the society of the programme offered in VTCs
- b) Create collaboration and partnership with the relevant industries

Youth Development

These lessons learnt include:

- a) Importance of networking and collaboration with relevant actors, and
- b) Proper planning and prioritization of youth programmes and projects
- c) Proper planning, partnership development and coordination with other sports stakeholders is critical
- d) There is a need to formulate policies and legislation on sports

Culture

These lessons learnt include:

- a) Strengthened financial and procurement processes to ensure timely implementation of programmes and projects.
- b) There is a need for improvement in collaboration, partnerships and networking.
- c) Enhanced monitoring and evaluation for effective and efficient service delivery and project implementation

Social Services

These lessons learnt include:

- a) There is a need for programs prioritizing
- b) There is a need for intersectoral collaboration to achieve a common goal.

2.4.4. Health

Key Achievements

a) General Administration Planning and Support program

The Sector improved efficiency and effectiveness in health care services by ensuring compliance with set standards and norms. It also improved the staffing level to achieve the recommended HCW/patient ratio.

b) Health Products and Technologies

Health Products and Technologies Sub-programme caters for expenditures on pharmaceuticals, non-pharmaceuticals and equipment and took substantial chunk of the health sector budget. During the year under review (2021-2022), pharmaceuticals allocation was KES 742,128,416, Non-pharmaceuticals was KES 204,556,035, Medical equipment used KES 138,307,339, Radiology allocation was KES 4,403,997, and Laboratory supplies allocation was KES 25,695,234. However, a number of bills from suppliers of these supplies have not been met and are still pending payment as at the date of reporting.

Due to effects of electioneering period and the cases surrounding KEMSA, achievement for Average Order Fill Rate (AOR) of 22 trace medicines dropped from a baseline of 75% to 50% during the year under review. AOR of 14 tracer lab diagnostic supplies dropped from 80% to 50%, while AOR of the 2 tracer radiology supplies dipped from 100% to 50% during the same period.

c) Human Resource for Health

In order to enhance service provision and improve ration between the human resource for health and the population, the Sector attained 1 Doctor per 10,000 population against a target of 10 which represented 10% of the target. The number of nurses per 10,000 population ratio achievement for the year was 7 (9%) against the target of 76. Similarly, the County targeted to have 36 Consultants and 87 medical officers and achieved 41 (114%) and 71 (82%) respectively. Detailed achievements for the human resource for health are summarized in table 2.10.:

Table 2.10: Achievements for Human Resource for Health

Category of Human Resource for Health	Baseline	Target	Achievement	Remarks
Doctors	-	10 doctors/ 10,000 population	1 doctor/ 10,000 population	The achievement represent only 10% of the recommended doctors/10,000 population
Nurses	-	76 Nurses/ 10,000	7 Nurses/ 10,000	The achievement represent 9% of the recommended

Category of Human Resource for Health	Baseline	Target	Achievement	Remarks
		population	population	76 nurses/ 10,000 population
Consultants	-			
Medical Officers

Lab Officers/				
Technologists				
Orthopaedic				
Technologists				
Nutritionists				
Radiographers				
Physiotherapists				
Medical Engineering				
Technologists				
Drivers				
Community Health				
Assistants				

It has 12 dentists against a target of 18, 43 pharmacists against a target of 37 (116%) and 26 pharmaceutical technologists against a target of 27 (96%). General Clinical Officer target was 221 from a baseline of 141 against which 173 (78%) was achieved. Nursing staff target was 975 from a baseline of 810, achievement was 833 (85%). Lab officers increased by 14 and technologists reached 104 against the set target of 194 from a base of 169; achievement for the year was 199 (98%) There were no orthopaedic technologists hired although 8 were targeted; the number remained 2 as previous year. Nutritionists target 65 from a baseline of 40; achievement was 65 which was 74%. Radiographers target was 14 from a baseline of 9, achievement was 18 which is 129%. 24 Physiotherapists were targeted, achievement of 21(88%) was realised by the end of the year from a baseline of 14. Medical engineering technologists remained11 as from the previous year.60 drivers were targeted from a baseline of 26. Achievement was 36 (60%). Community Health Assistants (CHA) were 70 at the beginning of the plan period; 150 were targeted achievement was 169 which is 113%.

c) Community Health Strategy

Community health is implemented through a Community Health Unit which is the level 1 of health service delivery structure. During the period under review, the

number of people referred from community unit to health facility were 98,497 against the department target 53,873 people. Number of clients referred from the community unit reaching the facility were 324 against a target of 960 which is far below in comparison to the referrals. The gap is attributed to improper capture of data in the facilities due to lack of proper community referral guideline. 7 motorbikes were provided for use by the community units. The CHVs continued to receive their monthly stipends although not all CHVs were under the stipend program. By the end of the plan period, 205 community units were functional with more units set to be operationalized in the next financial year.

The national government contracted health care workers under the UHC program, a factor that has immensely contributed to the improved health service delivery. However, their contracts end in May 2023. Thus, to be able to maintain the current HCW/Patient ratio, there is need for the county to absorb the UHC staff.

d) Infrastructure

During the period under review, 3 laboratories were accredited. There was continued upgrading of Kirwara and Kigumo Subcounty Hospitals to level 4 hospitals to provide all inpatient services with modern incinerators. Kangema Subcounty Hospital Theater and general wards were operationalized. The opening of 4 new health facilities helped in reducing the distance to health facility from 10 km in the previous year to 8 Km at the end of the year under review against the target of 7 Km.

e) Curative services

Outpatient utilization rate remained 1.6 as the previous year against the target of 2. Percentage of bed occupancy rose from 79% during the FY 2020/2021 to 102% at the end of the year under review. There were, however, calls for more beds for the wards to avoid patients sharing beds as has been the case mostly in Murang'a Referral Hospital. The rate of caesarean sections attained 22.9% during the year under review. Other notable achievements included malaria positivity rate at 1.5%, number of maternal deaths was 13 which translated to an MMR of 67/100,000, 7.8 fresh still birth rate per 1000 births in institutions.

f) Preventive Promotive Health Services

There was negative decline in malaria positive cases from 201 in FY 2020/2021 to 336 in the FY 2021/2022. The county introduced medical and diabetic clinics in all the level 4 and level 5 facilities with tuberculosis programs conducted from the community level to the main hospitals. Screenings were done at the main hospitals for active case finding. The County maintained 34 health facilities offering care and

treatment for HIV clients with a total 17242 clients receiving care during the FY 2021/2022 in the said health facilities.

For the control of non-communicable conditions, efforts were made to control, manage and reverse the trend through community screening programs, active case management and targeted life style change. The mental health services were decentralised to the lower levels and mental health outreach services conducted. Under reproductive health, achievements include; Neonatal & Child Health-improvement of NBU space; oxygen piping from oxygen manhole, Additional heaters, Additional baby cots, rescusctaire machine, and CPAP.

During the year under review, number of adolescents aged 10-14 years presenting with pregnancy at 1st ANC visit reduced from 61 at the end of FY 2020/2021 to 35 at the end of FY 2021/2022. Ages 15 - 19 years reduced from 5,458 during the FY 2020/2021 to 4,160 while the percentage of pregnant women who were adolescents aged 10-19 years was 18.4% for the year 2021.

g) Nutrition Services

The nutrition services aimed at reducing the number of malnourished children. During the period under review, the County targeted to reduce the number of under 5 years children with stunted growth by 20% from the baseline of 19.6%. However, the County attained a stunted growth of 10% from 19.6% which placed among the counties with low stunting cases.

Ambulatory services	Ensure prompt referral system		Procurement of ambulance vehicles	1	9M	9M	THS

Sector Challenges

These challenges include:

- a) Inadequate funding for the sector
- b) Lack of adequate laboratory services
- c) Inadequate emergency services for delivery and under-utilization of existing antenatal services;
- d) Inadequate skills and competences of health workers
- e) Poor surveillance systems due to lack of automation of health services
- f) Interruption of immunization by frequent power outages and erratic gas supply, Logistic challenges in support supervision and supplies and breakdown of equipment
- g) Inadequate capacity for emergency and disaster preparedness
- h) Increased cases of mental health challenges
- i) Inadequate health infrastructures and equipment
- j) Weak enforcement of existing laws and policies
- k) Increased road accidents due to poor road infrastructure and untrained road users

Lessons Learnt

These lessons learnt include:

- a) It is important to prioritize the planned projects for proper and smooth implementation.
- b) There is a need to have an emergency kitty for emerging public health challenges. This should be in the plan before the emergencies to allow timely interventions.
- c) There is a need to have some substantial amount of funds in the health facilities to enable smooth running and management of the same.
- d) Provision of aqua tabs to households may curb water related illnesses
- e) Strengthening universal health coverage activities, such as recruiting more households to the NHIF scheme.

2.4.5. Trade, Tourism, Investment, Agri-business and Cooperatives

Key Achievements

Trade

The directorate of trade constructed 18 market sheds, including Gikoe (2022), Gatumbi (2020) and Kabati washrooms (2018); provided small trader loans amounting to 20 million through the Small Trader Empowerment Program's special purpose vehicle – Wachuuzi SACCO; the weights and measures program calibrated over a thousand machines in the 7 sub-counties annually; there was an increase in private industrial investments numbers from 13 to 21. This has brought about an

increase in employment; and traders of agro-products, pottery and weaving and small-scale producers attended two trade fairs annually.

Tourism

The Tourism sub sector identified and mapped the following six heritage and cultural centers: Mukurwe wa Nyagathanga, Fort Hall Residence, Wangu wa Makeri Homestead, Paramount Chief Karuri wa Gakure Homestead, Tuthu Religious Shrine and Mau Mau Caves. From these, Mukurwe wa Nyagathanga, Karuri wa Gakure and Wangu wa Makeri Homesteads have been gazetted as heritage sites by the National Museums of Kenya. The gazetted sites form the baseline for resource mobilization.

It also contracted the Department of Hospitality, Tourism and Leisure Studies of Kenyatta University to be the lead consultant to rehabilitate Mukurwe wa Nyagathanga so that it can become to a vibrant centre of cultural tourism and culture learning centre with a theme of "LETS GO TO MUKURWE WA NYAGATHANGA PRAY and GIVE THANKS.

Other activities include:

- organized a cultural festival event at Mumbi Grounds in 2019, which attracted a variety of stakeholders;
- organized cycling events in 2018 and 2020 along the Nyoka road. It attracted 62 professional cyclists from around the country. The outcome was to diversify the tourism experience and showcase the countryside panoramic sceneries, thus promoting Aberdare Tourism Circuit.
- a) Took 22 different Tour operators and 96 visitors into the Aberdare through two separate entry points for the adventure tourism of hiking and camping.
- b) Mapped two entry points and footpath into the Aberdares, the Wanjerere, in Kangema/Mathioya and Gatare in Kigumo sub-counties.
- c) Attended five tourism expos and fairs in different counties and centers, namely: Kakamega County, Kilifi County, Meru County and twice at Sarit Centre..
- d) Produced a video documentary showcasing tourism sites, accommodation facilities and enumerated activities in the county. It was christened as THE GEM ADMIST ROLLING HILLS.

Cooperative Development

The Cooperative Development Directorate constructed the Murang'a County Creameries in 2019 at Maragua. The plant has the capacity of processing 20,000L per hour of UHT milk. It can also produce yoghurt, cheese, and semi-long life packed milk. The Directorate also acquired ten 5,000-liter milk coolers distributed to farmer cooperatives; stabilized the price of Milk at KES 35 per kg from previous payment of KES 28; managed to control middlemen/brokers in the dairy sector which led to the

stabilization of the price of milk; held five sensitization workshops across the county where 80 board members and 165,000 members of cooperative societies were trained; 15,000 new members of cooperative societies were recruited, and 32 new cooperative societies were registered and 7 dormant ones were revived.

Cooperative Audit

Through the Audit Section, 516 audits were undertaken throughout the county earning more than KES 1M revenue; and successfully conducted three liquidations at Kagaa Farmers' Cooperative Society, Kandara Farmers' Cooperative Societies, and Mugoiri Five FCS.

Agribusiness

The Agribusiness and Marketing department undertook market intelligence research that led to compliance with agricultural produce and product market requirements and standards.

The following were the specific challenges faced by the directorates

Trade

- a) Low uptake of innovation and patenting
- b) Governance & regulatory framework
- c) Ignorance on existing policies and laws, which further hinder
- d) Inadequate office space and infrastructure
- e) Low level of youth awareness and uptake of AGPO
- f) Inadequate budgetary allocation to promote local and international trade
- g) Limited technical capacity
- h) Undiversified access to financial services

Tourism

- a) Lack of appreciation of the socio- economic potential of tourism.
- b) Financial constraints resulting from limited budget allocation, and bureaucracy in securing funds
- c) Impacts of Covid19 on restriction of movements
- d) Inadequate staffing with only one staff in the section
- e) Centralization of critical decision-making organs
- f) Lack of a tourism regulatory framework for the county
- g) Limited facilitation

Cooperative Development

- a) Inadequate funding which affected extension services
- b) Inadequate staffing hampering extension services.
- c) Rampant wrangles within the cooperative movements across the county
- d) Intense politics in cooperative societies
- e) Limited capacity to use modern technology in the management of cooperatives
- f) Low numbers of youth and women participating in the cooperative movement

Cooperative Audit

- a) Inadequate staffing affecting audit extension services. There are only 6 auditors in-post against the optimal required number of 30 to effectively cover the County
- b) Inadequate budgetary allocations impacted on provision of extension services
- c) Inadequate technical capacity in cooperatives to prepare quality financial reports

Agribusiness

- a) Inadequate market intelligence, research and innovations
- b) Intense competition that hinders access to domestic, regional and international markets
- c) Dilapidated market infrastructure
- d) Poor post-harvest management
- e) Low commercialization

f) Low compliance with agricultural produce and product market standards and requirement,

Lessons Learnt

Trade

- a) Need for integrated co-ordination with other departments
- b) Have increased linkages with the national government and the private sector

Tourism

- a) Tourism development is largely a consumer sector; hence a significant amount of resource allocation is fundamental if the county is to realize tangible benefits from tourism.
- b) County has a lot of tourism resources that are yet to be utilized and a definite approach is required in identifying, mapping, developing and marketing.
- c) There is a need to diversify into unique tourism exploits for maximum experiences and to create different arena from other destinations
- d) The County ought to steward a conducive environment through a legislative framework so as to attract serious investors

Cooperative Audit

- a) There is a need for cross-sectoral synergy to promote producer-based cooperatives and address the problems of fragmentation and informality that exist in the supply chain
- b) Management reforms and use of ICT should be integrated in the operations and management of Cooperative movements
- c) Continuous capacity building and sensitization is important in enhancing cooperative leadership and management
- d) Vibrant cooperative movements are hinged on stable markets devoid of middlemen/brokers

Agri-business

- a. Partnership worked well with other programmes, such as ASDSP, NARIGP, HCD, Hand in Hand East Africa.
- b. Utilize ICT to reach more people

Payment of Grants, Benefits and Subsidies

Table 2.11: Payment of Grants - Trade, Tourism, Agribusiness and Tourism

Type of payment	Budgeted Amount (Kshs.)	Actual Amount paid (Kshs.)	Beneficiary	Remarks*
Small Traders Empowerment fund	10,000,000	Nil	Nil	Project on-going
Dairy support	Est. 100 million	Est. 100 million	MCCU	To subsidize the prices of milk

2.4.6. Environment and Climate change

Key Achievements

Environment

Environment Management and Protection Programme: 300 litterbins were acquired and distributed to the nine sub-counties.1000 assorted waste collection tools and 1,000 pieces of protective equipment were procured and issued to two hundred and sixty-three workers.

County environment committee was gazzeted in 2018 for a period of three years. Beautification of Kangema and Kenol towns by planting of ornamental trees and flowers along the streets. One waste collection truck was procured. A total of 1000 youths were trained across the county on reduce, re-use and recycle on waste management through public private partnership.150 waste collection chambers were constructed in Gatanga, Kangema, Kigumo and Maragua sub counties. Sanitary landfill (Mitumbiri) is 80% complete funded by World Bank through Nairobi Metropolitan Services Improvement Project (NAMSIP). Kangema & Karii dumpsites were improved by gravelling of access roads.

Natural Resource Conservation and Management Programme: The rehabilitation of 3 degraded areas (Kiang'ombe gullies, Kagumo in Kahuro, and Kora in Mathioya).100 seedlings nurseries were established. Punda Milia dam was desilted.10Km of Saba and Maragua river banks were rehabilitated by planting bamboo and other indigenous trees. 520,000 tree seedlings were procured and distributed to various public institutions and planted.

Administration Planning and Support Services: The programme, which seeks to enhance coordination efficiency and service delivery, trained 19 members of staff on integrated environmental assessment and audit, 14 staff members on senior management course, 2 on strategic leadership development program, and one on transformative development course. 11 county & sub county offices were improved with various office equipment, such as desk top computers, metallic cabinets, and laptops.

Water catchment area protection	To increase the tree cover conserve resources and rehabilitate degraded ecosystem	Rehabilitated riverbanks	No of kms of riverbanks rehabilitated	Procurement stage	3M	NIL	Partners

These challenges include:

- a) Insufficient budgetary allocation.
- b) Impact of climate change issues
- c) Inadequate legal instruments (Policy on waste management, forestry).

Lessons Learnt

- Need for phased implementation of capital-intensive projects
- There is a need to domesticate national government legislations, such as EMCA.

2.4.7. Land, Housing and Urban Development

Key Achievements

The Sector achieved the following sub-sector specific milestones as shown is Table 2.10.

Lands, Physical Planning and Urban Development

The department established and operationalized the Murang'a Municipality, an agency of Murang'a County Government, created under Section 9(3) of the Urban Areas and Cities Act, 2011. The Municipality was awarded a Charter in 2019 vide gazette notice no. 11 of 3rd December 2019. Further, the functions were transferred vide gazette notice No. 10189 of 4th December 2020. The department also facilitated the preparation of the County Spatial Plan; Integrated Strategic Urban Development Plans for Kangari, Maragua, Kenol, Murang'a and A2 Corridor; succession program; titling: 10 freehold Titles and 100 Mjini Land Letters of Allotment; 80 boundary disputes were resolved; 100KM of access roads were opened up; 24 Part Development Plans (PDPs) prepared; and draft Delmonte master plan initiated.

Murang'a Municipality

The following roads were upgraded to bitumen standards: Amica Bank Building Access Road, JCT Brewery Depot – JCT Murang'a High School Link Road, JCT Road Behind Magunas Supermarket – JCT Magunas Whole Sale Road, NMT Walkway from JCT Kiria-ini Road – Lands Offices, JCT Mentor SACCO Building – KPLC Offices, and parking bays within the CBD; and ssensitized stakeholders on cross-cutting issues, including HIV-AIDS, disaster preparedness and management as well as gender roles and responsibilities in public development.

selected roads including Mukuyu Alpha Junction to Mukuyu Market, Unaitas- Benrose Junction Road and Mukuyu Bus Park			0.4 km of NMT 92 Parking bays	of cabro- standard road (low volume seal)				
Constructing to bitumen standards of JCT Hospital Road Stage, KPLC – Lands Offices – JCT Kiria-ini Road & JCT Family Bank Back - lane Access Roads and further completed the improvement and upgrading of Mukuyu ECD School and Social Hall.	Upgrade the road to bitumen standards	:	1.8 km bitumen- standard road 2.4 km drainage system	Project design, Feasibility studies, ESSIA Construction of bitumen- standard road (low volume seal)	Complete	48,374,646	48,374,646	KUSP – UDG 2019/2020 FY
Renovation/improvement of Municipal offices to create space for staff	Create space for Municipal staff	1	Fully renovated municipal offices	Renovation Furnishing	Complete	10,000,000	10,000,000	KUSP - UIG

- a) Scarce financial allocation
- b) Inadequate provision of fieldwork logistics (transport and equipment) for planning functions within the county
- c) Inadequate office space
- d) Weak inter-sectorial synergies in revenue collection

2.4.8. Roads, Transport, Energy and Public Works

Key Achievements

During the 2021-2022 financial year, the roads sector rehabilitated 2 km of streetlights and 15 floodlights; installed 3000sqms of cabro stones; opened 245 km of access roads, graded 330 km, gravelled 16km and constructed 17 bridges/footbridge and box culverts; upgraded approximately 420 km of county roads (unclassified roads); formulated a housing policy; and supervised renovation and upgrading of 40 polytechnics in the county.

- a) Encroachment on feeder roads
- b) Unforeseen calamities, such as landslides and COVID 19 pandemic
- c) Fieldwork logistical challenges, such as lack of supervision vehicles
- d) Road encroachment by private developers
- e) Inadequate office space
- f) Insecurity vandalism of streetlights and road furnitures

Lessons Learnt and Recommendations

- a) Need for intersectoral collaborations
- b) Timely disbursement of resources is vital for successful project implementation

2.4.9. Agriculture, Livestock and Fisheries

Key Achievements

The Sector achieved the following sub-sector specific milestones as shown is Table 2.11.

Crops

Under Food and Nutrition Security programme, the directorate purchased 500 metric tonnes of hybrid maize and 50,000 (50 kg) bags of top-dressing fertilizer and issued to 50,000 farming households countywide. Through the avocado upgrading sub programme, 329,000 Hass avocado seedlings were issued to 50,540 farmers increasing the production area by more than 1000 hectares. During the period, the Crops Directorate targeted offered extension services to County farmers using different approaches and methodologies such as SHEP approach, Farm field schools, field days, farm demonstrations, barazas, group and individual farmer visits.

Livestock Development

The Livestock Production Department, in collaboration with Upper Tana Natural Resources Programme (UTaNRMP), distributed 840 dairy cows to 56 common interest groups spread across all the sub counties. In addition, the Department carried out 39,347 farm visits, held 76 field days, 727 demonstrations, and 2122 grouptraining sessions.

Veterinary Services

The Department ensured that 10,209 cows, were Inseminated; 104,906 carcasses (bovine, caprine, ovine and porcine) were inspected, 66,008 hides and 17,124 skins were produced and 15,375 farm visits were conducted. The revenue collected was approximately KES 16,666,281.

Fisheries

During the period, there were 1651 farm visits and more than 100 field days organized, which raised productivity from 67kg per 300m² to 82Kg of fish per300m². Five public dams were stocked with 30,000 with fingerlings in Maragua sub county. There were 32 "eat more fish campaigns" Over 200 fish inspections and 85% of fish traders in the county were licensed over the period.

Agricultural Value Chains, Organic Agriculture, Policy and Strategy Directorate

The Agricultural Value Chains, Organic Agriculture, Policy and Strategy Directorate developed 12 draft legislations that include: Draft Murang'a County Mining and Quarrying policy; Draft Murang'a County Alien and Invasive Species Policy; Draft

Murang'a County Rural Roads and Storm Water Policy; Drafts Murang'a County Wetland and Riparian Policy; Draft Murang'a County Food and Nutrition Bill, 2022; Draft Murang'a County Electronic Farm Inputs Subsidy Policy; Draft Public Finance Management Agriculture Farm Inputs Management; and Draft Public Finance Management Agriculture Farm Inputs Dairy Milk Fund.

Coffee Development

The Directorate Increased coffee production through promotion of several strategies, such as the introduction of farmer field schools and provision of subsidized farm inputs. It also improved the efficiency of coffee primary processing through training of factory managers and the construction of coffee drying tables and other strategies and increased acreage of coffee by developing and distributing 4.2 million coffee seedlings.

The coffee directorate developed the county coffee revitalisation program action plan. This was adopted by the national government and is being implemented in eight counties as a pilot. It is being implemented in Murang'a under NARIGP project. It also participated in GIZ coffee innovation fund competition. One proposal on water conservation was considered and is being implemented in Rwegetha Factory in Gatanga.

The directorate initiated the establishment of a coffee cupping laboratory as well as the Murang'a County Coffee Platform, which is part of the Global Coffee Platform Re-organisation and restructuring of the Murang'a farmers co-op union. It has also introduced Kenya coffee to the Singapore online coffee auction and Nebraska State in the USA.

KATC Mariira Farm

The Kenyatta Agricultural Training Centre KATC Mariira farm was able to train 35,000 farmers through non-residential training, outreaches and stakeholders' field days. However, a target of 50,000 farmers was not met due to the covid-19 effect. Two stakeholders' farmers' field days were held annually with an average of 3000 farmers per field day in attendance.

Agricultural Sector Development Support Programme Phase Two (ASDSP II)

The programme had targeted to reach 23,633 value chain actors dealing with dairy, bananas, and french beans). By the end of the period, the programme had achieved 60% of the target, which is 14,170 value chain actors (VCAs). This achievement was through the 30 service providers (SPs) targeted and achieved as seen in Table 2.4.

National Agricultural and Rural Inclusive Growth Project (NARIGP)

Under Component 1: Supporting Community-Driven Development.

The overall objective of this component is to strengthen community level institutions' ability to identify and implement investments that improve their agricultural productivity, food security and nutritional status; and, linkages to selected value chains (VCs) and Producer organizations (PO). The achievements for this component were:

- a) Supported 745 groups with 25,391 farmers (10,410males and 14,981 females) to implement micro projects under the following windows; 521Value Chains and Sustainable Land Management (VC/SLM) groups, 95 Livelihood, 90 Vulnerable and Marginalised Groups (VMG) groups and 39 Nutrition Mainstreaming (NM) groups;
- b) It also disbursed KES 203,398,899. To these groups and trained farmers on technology innovation and management practices of each value chain and each farmer has adopted at least one each.

During the CIDP period the Achievements were:

- a) Inclusion of membership to the POs; The membership of FPOs increased from 13,440 to 30,034. Two additional county POs were started under poultry and avocado value chains. The CIG federated to join FPOs increased from 191 to 567 The POs are distributed as follows:
 - Avocado Value Chain 7 cooperatives, 94 CIGs
 - Dairy cows 4 cooperatives, 139CIGs
 - Bananas 4 cooperatives, 85 CIGs
 - Local chicken 1 cooperative, 249CIGs
 - Coffee- 7 cooperative societies, 635 CIGs

As a result of increasing POs membership, the annual turnover for the supported POs increased from KES 1.178 billion to KES 1.496 billion. The profit increased from KES 23.704 million to KES 42.7 million

- b) Implementation of Enterprise Development Plans
 - Banana ripening chamber for Gikama Agribusiness Cooperative society which was at 30% completion.
 - Establishment of a fodder production unit for Kangari United Dairy cooperative which was at 65% complete
 - Rehabilitation of 7 coffee factories-at procurement stage

c) Value chain upgrading

• The establishment of avocado pest free zone for Murang'a avocado Farmers' cooperative Union (at 50% completion).

- The establishment of a poultry hatchery and breeding farm for Murang'a poultry farmers' cooperative (at 52% completion).
- Establishment of banana processing facility (processing of banana flour and baking of banana products) for Sabasaba Agribusiness Cooperative (at 40% completion).
- Establishment of Avocado Aggregation Centre for Murang'a Avocado Farmers' Cooperative Union (at procurement stage).
- Installation of milk pasteurization unit for Kangari United Dairy Cooperative (at procurement stage).

With the objective of strengthening Producer Organizations (POs) and improving market access for smallholder producers, the CIGs and VMGs formed under Component 1 were supported to federate into strong business-oriented POs; Inclusion of membership to the POs; which increased from 13,440 to 30,034. Two additional county POs were started under poultry and avocado value chains. The CIG federated to join FPOs increased from 191 to 567. The annual turnover for the supported POs increased from Ksh 1.178billion to Ksh 1.496 billion. The profit increased from Kshs 23.704 million to Kshs 42.7 million; Implemented Enterprise Development Plans: Banana ripening chamber for Gikama Agribusiness Cooperative society, Establishment of a fodder production unit for Kangari United Dairy cooperative, rehabilitation of 7 coffee factories:

Under Component 3: Supporting County Community-Led Development.

The objective of this component is to strengthen the capacity of county governments to support community-led development initiatives. These include county investments that support value chains and sustainable land management. The achievements include:

- a) There are 13 Projects which have been supported
 - Ititu Ikundu Irrigation Scheme which will serve 457 households and has reached 70% completion
 - Sustainable Land Management projects include the implementation of:
 - Sabasaba -in Muthithi Ward-Kigumo Sub-county
 - Warugara in Kiru Ward, Mathioya Sub-county
 - Makindi Karimamwaro in Kanadara Sub-county
 - Mugongi in Mugoiri Ward Kahuro Sub-county,

Under implementation

- Gaaci in Kagunduini ward, Kandara Sub-county
- Boboti-in Ruchu ward, Kandara Sub-county

- Kagwanja Mukui in Kamacharia ward, Mathioya Sub-county
- Gachocho -in Kinyona ward, Kigumo Sub-county
- Thamara-in Muthithi Ward, Kigumo Sub-county
- Mika- in Mugoiri ward, Kahuro Sub-county
- a) Implementation of the 4 Sustainable Land Management Projects have enabled the installation of 258 farm ponds for runoff harvesting with a capacity of 100m³ each have been installed for harvesting runoff and providing water for small scale irrigation. To increase tree, cover 23,500 Hass avocado and 16,000 agroforestry tree seedlings were planted. A total of 4677 hectares were conserved and 46.24 ha were put under irrigation.

Sector Challenges

Crops

- a) Prolonged drought adversely affected rain fed and irrigated farmlands.
- b) Increased farm input prices, such as CAN fertilizer rose from KES 2500 in July 2021 to KES 5400 in 2022
- c) Emergence of the following Migratory pests; fall army worm, African army worms (Long Rains-2022), desert locusts (Short Rains 2019), quelea birds (Short Rain-2021 and Long Rains 2022) in rice fields.
- d) Invasion of velvet monkeys caused the destruction of crops, including maize, tender beans, coffee, mangoes, banana, and macadamia. There was no compensation under Wildlife Crop Damage Act.
- e) Covid-19 pandemic affected extension service delivery at production and marketing levels as containment protocols demanded reduced group sizes, minimal human contact and restricted movement across Counties (March 2020-July 2022).
- f) Receding workforce due occasioned by retirements

Livestock Development

- a) Nil disbursement of livestock development funds in the period under review, this adversely affected planned departmental activities;
- b) Low staffing levels of extension staff, (15) to cover all the 35 county wards;
- c) There was a problem accessing farmers and farmer groups, as three departmental vehicles were reallocated from the department; and
- d) The prolonged drought in 2017 2019 affected fodder availability leading to low livestock productivity.

Veterinary Services

- a) Inadequate budgetary allocation;
- b) Delay in accessing approved budgets;
- c) Lack of customization of existing national policies, acts, strategies to fit county needs.
- d) Lack of sanitary documents;
- e) Lack of a structured engagement with the private practitioners, Health department and Law enforcement officers;
- f) Understaffing in the county director's office, laboratory, leather development offices;

Fisheries

- 1) COVID -19 affected activities during the implementation period
- 2) Low budgetary allocation
- 3) The competition with the national government for fingerlings in the past three years
- 4) High cost of production of inputs, such as fish feeds, purchase of pond liners and fishing equipment's.

Agricultural Value Chains, Organic Agriculture, Policy and Strategy Directorate

- a) Near grounding of extension activities in key mandate areas due to non-facilitation
- b) Poor coordination and planning within the department was experienced
- c) High staff turnover resulting from natural attrition followed by non-replacement
- d) Lack of funding to directorate in both recurrent and development votes
- e) Diversion of departmental bulk funds to emerging issues, such as relief food and seeds
- f) Lack of consistency in project support from county treasury

Coffee Development

- Lack of adequate transport.
- Adverse weather
- Understaffing; five officers retired without replacement.
- There was the continued perception that the prices of coffee were low.
- Coffee theft from the primary processing factories.
- The coffee co-operatives used outdated manual systems for records keeping, with all systems being manual.
- The coffee societies held high debts and therefore lacked adequate funds to run their operations, this limited their ability to access finance

KATC Mariira Farm

- a) Lack of transport for efficient movement of officers, as well as transport for ferrying of farmers to attend training. More farmers can be served if the ATC gets a bus to ferry learners.
- b) The lack of funds from the county finance office made many of the planned activities fail. Consideration for revolving funds to the ATC may assist in ensuring funds availability throughout.

- c) The acquisition and delivery of inputs, materials and feeds procured from the county headquarters failed, and the little done was irregular especially the dairy animal feeds. This had significant effect on the nutrition of the animals, and hence lowered their production.
- d) The limitation in terms of available training infrastructure and equipment at the agro-processing unit (APU) minimizes the chances of reaching out to more farmers. In addition, it reduces the number of products which can be value added and promoted at the ATC.
- e) The negative perception of the youth towards agriculture, causing their reduced engagement in agricultural activities.
- f) Adverse weather conditions affecting crop performance

. Agricultural Sector Development Support Programme Phase Two (ASDSP II)

- a) Delayed transfer of donor funds from CRF to the commercial account
- b) Covid-19 challenges leading to less farmers attending trainings
- c) Adverse weather conditions affecting crops performance

Lessons Learnt and Recommendations

Crops

- a) When planning and funding for projects and programmes, there is a need to factor in the costs for possible emergencies and issues that can affect positively or negatively the implementation of these occurrences; and
- b) It is imperative to apply ICT communication tools to leverage against no physical and meetings caused by adverse situations such as COVID 19 outbreak

Livestock Development

- a) Collaboration with sector stakeholders in service delivery avails the necessary departmental operational resources. The stakeholders included development projects (NARIGP, UTaNRMP, and ASDSP);
- b) Using emerging and innovative extension approaches and technology (SMS, WhatsApp and phone calls) enhances service delivery; and

c) Prioritizing climate smart agriculture practices (egg fodder irrigation and Silage making) leads to appropriate adaptation to effects of climate change in livestock production

Veterinary Services

- a) That the veterinary department would perform better with private practitioner actively involved in its operations;
- b) Licensing, inspection and adherence to the laid rules and regulations have been neglected and need to be revived; and
- c) Veterinary departed would operate better with the implementation of the veterinary department development fund-VSDF,

Fisheries

- a) Collaboration with other sector players like the state department of fisheries, UTaNRMP project, NARIGP project, enhanced implementation of the various programs, especially on stocking of dams
- b) Collaboration with other programmes like ACK church through caritas assisted farmers in the development of water pans and a good number of these farmers have stocked these water pans with fish.

Agricultural Value Chains, Organic Agriculture, Policy and Strategy Directorate

- a) Need to focus ADP and CIDP programming and aligning to budgets provision
- b) Need to avoid over running budgets beyond allocations
- c) Negative Impact of not focusing on supporting extension on food security and economic development of sector
- d) Critical role of strategic planning to growth f sector
- e) Need for sub sector coordination as proposed in CASCOM legislative paper

Coffee Development

- a) The coffee co-operatives have the potential to attract other financiers and alternative sources of funding
- b) The coffee co-operatives have a large catchment area hence immense potential for growth
- c) Adoption of technology and staff creativity eased departmental service delivery, especially data collection and reporting.
- d) Purchase and/or repair of vehicles and timely servicing of existing vehicles and motor cycles will enhance staff mobility for effective service delivery.
- e) Existence of disease resistant coffee varieties Batian & Ruiru 11 from the coffee Research institute

KATC Mariira Farm

- a) Covid-19 challenges brought about new strategies of working and communication like zoom.
- b) There is need to rebrand of Kenyatta Agricultural Training Centre, Mariira Farm and enhance collaboration with county wide stakeholders in promoting KATC service charter.
- c) There is need to employ ICT based extension methodology and creating digital platform for farmers and stakeholders
- d) Due to unreliable rainfall and intension to put more land under cash crops, the is need to expand and improve the existing irrigation infrastructure from 3 acres to 10 acres.

Agricultural Sector Development Support Programme Phase Two (ASDSP II)

- a) Covid-19 challenges brought about new strategies of working and communication
- b) Milk delivery and Payment ICT applications have improved efficiency in the dairy sector
- c) Individuals and cooperatives can also thrive well when given a chance to plan their own activities without too much interference by the authorities

2.4.10. Water and Irrigation

Key Achievements

Water and Sewerage Directorate

The Directorate provided water to 212,912 households out of 318,105 households in the county which represented 67 percent coverage in domestic water supply. The directorate also connected 38,134 households to sewerage services representing 12 percent coverage. The services were offered through 5 public water supply entities, 35 community projects and 11 county boreholes as shown in Table 2.6.

Irrigation Directorate

A total of 13 Irrigation schemes were initiated and these include Mirichu- Murika in Kahuro Sub County, Nyanjigi in Kangema Sub County, Githuya in Kandara Sub-county, Mirira in Kiharu Sub-county Nginda in Maragua Sub county and Ndakaini Wanduhi in

Gatanga Sub county among others increasing the land under irrigation to 45,000Ha. Under the same programme, the directorate had planned and managed to increase the number of farmers trained in using modern irrigation technologies by 50% from 9,000 to 13,500 farmers.

One mega dam (Maragua Dam) was constructed along Maragua river to supply water to the lower side of Murang'a, de-silting was done to Mugira dam in Maragua sub county and Gakaki irrigation scheme intake works in Kahuro sub county. A total of over 100 water pans were also constructed in Murang'a South region.

Table 2.18: Water and Irrigation Sector Programmes Performance

Programme	Sub-Programme	Delivery Unit	Key Outputs	Key Performance	F'	Y 2021/2	022	Remarks

Sector Challenges

Water and Sewerage Directorate

These challenges include:

- a) High levels of non-revenue water due to wastages caused by leaks, water theft and pipe bursts.
- b) Inadequate budgetary allocation to the sector
- c) Vandalism of water infrastructure
- d) Old and dilapidated water infrastructure leading to high levels of water wastages through leaks and bursts
- e) Destruction of water supply infrastructure by other developers

Irrigation Directorate

- a) Inadequate staffing
- b) Inadequate funding
- c) Un-coordinated policies, legal, institutional and regulatory frameworks
- d) Under-exploited irrigation potential due to low levels of public participation and investments
- e) Vandalism and theft of Irrigation infrastructure
- f) Destruction of irrigation infrastructure by builders and road contractors.
- g) Diminishing river flows due to changing weather patterns, climate change and illegal water abstractions,
- h) Inadequate and un-coordinated information in irrigation research, science and technology

Lessons Learnt

Water and Sewerage Directorate

- a) To reduce the accumulation of pending bills, care should be taken when awarding contracts and abiding by the approved budgetary allocations,
- b) The development of water supply infrastructure is capital intensive, hence, to supplement Government allocation, PPP programmes should be enhanced, and
- c) Water supply can be enhanced through the construction of flood water storage structures, such as dams and pans due.

Irrigation Directorate

- a) Inadequate staffing
- b) Inadequate funding
- c) Un-coordinated policies, legal, institutional and regulatory frameworks
- d) Under-exploited irrigation potential due to low levels of public participation and investments

2.5. Payments of Grants, Benefits and Subsidies

The following are the proposed grants, benefits and subsidies proposed to be issued to the county residents

Table 2.19.: Payment of Grants, Benefits and Subsidies

Type of payment (e.g., Education bursary, Biashara fund etc.)	Budgeted amount (Kshs. M)	Actual Amount (Kshs M)	Beneficiary	Remarks
Nyota Zetu Scholarship				
Wachuuzi Sacco	32.7	32.7		
Ufundi kwa Vijana				
Maize Seeds	101.83	101.83		
Fertilizer Subsidy	45.5	45.5		
Milk Support	83.22	83.22		
NARIGP Grant	107	107		

CHAPTER THREE

3. COUNTY STRATEGIC PRIORITIES, PROGRAMMES AND PROJECTS

3.1. Overview of the Chapter

This Chapter provides the overall sectoral development priorities, strategies and programmes for the financial year 2023-2024. It further provides county flagship projects as well as cross-sectoral linkages. The ADP is based on 10 sectors premised on the 10 departments of the County Government, namely: Public Administration and ICT; Finance and Economic Planning; Agriculture, Livestock and Fisheries; Roads, Housing and Infrastructure; Trade, Industrialization, Tourism and Cooperatives; Health and Sanitation; Lands, Physical Planning and Urban Development; Education and Technical Training; Youth, Sports, Culture and Social Services; Water, Irrigation, Environment and Natural Resources.

3.2. Public Administration and ICT

Public Administration and ICT Department comprise the Directorates of Public Administration and Coordination with divisions and sections that include:

- a) Public Administration and Coordination Directorate;
- b) Information Communication Technology and Public Communication;
- c) Human Resource;
- d) Fire Services and Disaster Management;
- e) Enforcement;
- f) Internal Audit: and
- g) Public Service Board

3.2.1. Public Administration and Coordination Directorate

Sub Sector Vision, Mission and Goal

Vision

Efficient and effective administration and coordination of service delivery

Mission

To enhance efficiency and effectiveness in administration and coordination of service delivery

Goal

To deliver quality service to the public

Sub Sector Priorities and Strategies

Table 3.1.: Public Administration and Coordination Sub Sector Priorities and Strategies

Sub Sector Priorities	Str	ategies
Enhanced Coordination of County	a)	Establish interdepartmental coordination
Services		committee chaired by the County Secretary
	b)	Strengthen Coordination of county administration
		with county assembly
	c)	Formulate public participation policy
Construct County headquarters	a)	Identify land and construct county headquarters
		(Murang'a Town)
	b)	Construct county sub-headquarters in Murang'a
		South (Makenji)
Construction of buildings	a)	Construct official residence for Governor and
		Deputy Governor
	b)	Construction of sub county offices (Kangema,
		Gatanga, & Ithanga)
Improved security and surveillance	a)	Install CCTV security system in County
		Headquarters and Sub- County offices
	b)	Construction of perimeter wall and gates

Sub Sector Programmes

3.2.3. Fire and Disaster Sub Sector

Vision, Mission and Goal

Vision

Efficient, effective and timely emergency services

Mission

To provide timely and effective emergency services

Goal

Saving lives and property

Sub Sector Priorities and Strategies

The Sub-se priorities are as summarized in Table 4.4.

Table 3.6.: Fire and Disaster Priorities and Strategies

Priorities	Strategies
Fire and Disaster Unit	Develop a well-structured and fully-fledged unit with adequate
Establishment	staffing with the right terms of engagement.
Digitization	Setting up Crisis Integrated Emergency Management System (CIEMS)/ Murang'a Integrated Emergency Management System (MIEMS)
Personnel Capacity building.	Facilitate trainings on Disaster Management to the Unit's staff and volunteers.
Public Sensitization programs.	Carry out sensitization programs on disaster management to enhance resilience in the society.
Enhancement of emergency response capacity	Setting up more fire stations (one fire station per sub-county) fully equipped with firefighting equipment and other rescue gears.

Sub Sector Programmes and Projects

3.2.4. Information Communication Technology and Public Communication

Sub Sector Vision, Mission and Goals

Vision

Transformed and automated County services

Mission

To provide effective, harmonized and automated services

Sector Goal(s)

- To enhance efficiency in service delivery
- Awareness creation of Government services

Sector Priorities and Strategies:

Table 3.9: ICT Sub Sector Priorities and Strategies

Se	ctor Priorities	Strategies
	Provide comprehensive information communication technology network connectivity	 a) Conduct a countywide survey on the connectivity requirements. b) Acquisition of connectivity materials c) Establishment of a countywide Local Area Network d) Provide countywide internet connectivity e) Conduct regular support and maintenance services
ii.	Disseminate information in a timely and efficient manner	 a) Provide regular updates on County services and activities b) Increase use of bulk SMS platforms c) Strengthen information networks d) Set up a feedback management system to handle responses to the public e) Enhance accessibility to websites
iii.	Improve service delivery processes	 a) Establishment of a Hospital Management System b) Digitization of Human Resources Records c) Identification of a county server room to enable efficient management and storage of county data d) Identify a mini-recording studio to handle all county audio-visual recording and editing needs e) Development of a Revenue Management System to ensure efficiency in revenue collection, seal loopholes of loss of revenue and ensure easier reporting
iν.	Development of County ICT Policy	Prepare an ICT policy Paper

and Strategy	

Sub-Sector Programmes

3.2.5. Human Resource

Sub Sector Vision, Mission and Goals

Vision

Effective and efficient management and coordination of human resource

Mission

To provide overall leadership and policy direction in human resource management and accountability for quality public service delivery.

Sub Sector Priorities and Strategies

The sector strategies and priorities shown in Table 4.8:

Table 3.12.: Human Resource Sector Priorities and Strategies

Table 3.12.: Hullian Resource Sec	
Sector Priorities	Strategies
Skilled Manpower	a) Develop and operationalize the Strategic Human Resource
	plan
	b) Develop a transformative organizational culture
An appropriate County	a) Carry out a workload analysis
Organizational structure and	b) Develop and review county organizational structures
workload analysis	c) Enhance the internship programme
Adequate and Properly placed	a) To develop and implement the recruitment and
Personnel	maintenance policies
	b) Ensure adherence to article 54 of the constitution by
	providing for at least 5 percent of all appointive and
	nominative positions within the counties for persons with
	disabilities
Continuous Training and	a) Develop and implement Training and Development
Capacity building	policy
	b) Leadership development and team building
Effective and efficient	a) Develop and implement performance management system
performance management	b) Develop a reward and sanction framework
	c) Establish Monitoring and evaluation policy
	d) Training on performance management
Employee Welfare	Develop and implement an employee welfare policy
Cordial Industrial Relations	a) Establish a liaison office
	b) Establish an industrial dispute resolution committee
Improved Record	a) Acquire adequate and secure filing system
Management	b) Digitize all manual Human Resource Records
	c) Training on records management

Automation of Human	a) Operationalize other inactive IPPD system functions.
Resource Functions	b) Linking the IPPD system with key offices in the county.
	c) Training on Human Resource Information System.

3.2.6. Internal Audit

Sub Sector Vision, Mission and Goals

Vision

Timely and prompt assurance and consulting that will ensure prudent and economical use of resources to yield maximum benefits to its customers

Mission

To enhance and protect Murang'a county government value by providing risk based and objective assurance, advice and insight, designed to add value and improve county operations.

Sub Sector Goal

Ensure accountable and responsive public governance in utilization of County resources

Table 3.14.: Internal Audit Priorities and Strategies

Sector Priorities	Strategies
Capacity building	a) Train officers in relevant skills b) Purchase office equipment
Internal controls	a) Installation of an Audit system b) Train officers about the audit system

3.2.7. Public Service Board

Sub Sector Vision, Mission and Goals

Vision:

Quality Human Capital servicing all sectors

Mission:

To effectively deploy efficient human capital for service delivery

Sector Goal(s):

To ensure attainment of the overall objective of the County Department

Sub Sector Priorities and Strategies

Table 3.15.: Public Service Board Sector Priorities and Strategies

PRIORITIES	STRATEGIES
Effectively utilize existing policies and legislation for efficient civil service	 a) Formulate human resource policies and plans that embraces career profile matching and staff performance Undertake Training and capacity building b) Establish and abolition of offices c) Recruitment of competent staff to fill the offices,
Promotion of public service integrity	 a) Sensitization of staff on values and principles; b) Undertake compliance audits and forward the reports to the relevant authorities c) Evaluation of the extent to which the values and principles have been complied with

3.3. Finance and Economic Planning

3.3.1. Governors Delivery Unit

Sub Sector Vision, Mission and Goals

Vision

County Government Services and programmes effectively and efficiently delivered.

Sector Mission

To ensure that all programmes and services are budgeted for, approvals acquired and necessary subsequent systems are adhered to.

Sector/subsector Goal

- a) Developing and implementing financial and economic policies in the county.
- b) Ensure compliance with the budget cycles timeliness and milestone
- c) Coordinating implementation of the budget of the county

Sub sector programmes

3.3.2. Finance

Sub Sector Vision, Mission and Goals

Vision

County Government Services and programmes effectively and efficiently delivered.

Sector Mission

To ensure that all programmes and services are budgeted for, approvals acquired and necessary subsequent systems are adhered to.

Sub sector Goals

- a) Developing and implementing financial and economic policies in the county.
- b) Ensure compliance with the budget cycles timeliness and milestone
- c) Coordinating implementation of the budget of the county
- d) Mobilizing resources for funding budgetary requirements
- e) Putting in place mechanisms to raise revenue and resources
- f) Public debt management
- g) Consolidating annual appropriation accounts and other financial statements
- h) Prudent management and control of finances
- i) Promote efficient and effective use of county budgetary resources

Sub Sector Priorities and Strategies

Table 3.19.: Finance Sub Sector Priorities and Strategies

Sector Priorities	Strategies
Improve on financial commitments	 a) Adherence to budget provision b) Increased financial resources mobilization c) Enhanced audit d) Review of the Finance Act e) Capacity building f) Developing Public Private Partnership Programs g) Enhance project financing through funded partnerships
	h) Facilitate the participation of PWDs in planning and policy by extending invitations to PWD groups and NCPWD whenever such opportunities are available.

3.3.3. Economic Planning

Sub Sector Vision, Mission and Goals

Vision

Effective and efficient planning, resource mobilization, execution and monitoring of programs and projects

Mission

To enhance capacity for planning and implementation of the sustainable development agenda

Goals

The Sub-Sector goals are to:

- a) Generate data and information for effective county planning services;
- b) Guide and coordinate socio-economic development planning and budgeting;
- c) Guide and coordinate the sectoral policy formulation and research
- d) Enhance resource mobilization skills through preparation of bankable project proposals for resources mobilization
- e) Build socio-economic research capacity; and
- f) Develop and implement efficient monitoring, evaluation and reporting systems for all county programs and projects
- g) Policy briefs, review and reports on the status of the county economy
- h) Technical backstopping to all departments on sectoral, cross cutting and emerging economic issues and development planning

Table 4.15: Economic Planning Sector Priorities and Strategies

Sector Priorities	Strategies
Improve service delivery processes	a) Capacity building of County Economic Planning Directorate b) Build and strengthen a statistical office to service the county
Preparation of requisite County Planning Policies.	 a) Preparation of County Integrated Development Plan (CIDP) 2027-2032 b) Preparation of Annual Development Plans (ADPs) ADP FY 2024/25 ADP FY 2025/26 ADP FY 2026/27 ADP FY 2027/28 ADP FY 2028/29 c) Convening CBEF committee meetings
Review the implementation of CIDP 2023-2027	a) Midterm Review of CIDP 2023-2027 b) End Term Review of CIDP 2023-2027

3.3.4. Monitoring and Evaluation

Sub Sector Vision, Mission and Goals

Vision

Credible and valid information for decision making

Mission

To inculcate the use of monitoring and evaluation in county operations for accountability, efficiency and effectiveness.

Goal

To provide a robust framework for use of modern motoring and evaluation tools, approaches and methodologies for efficient and effective decision making.

Table 3.23.: Monitoring and Evaluation Sub Sector Priorities and Strategies

3.3.5. Revenue

Sub Sector Vision, Mission and Goals

Vision

County revenue services improved

Sector Mission

To ensure efficiency in revenue collection

Goals

- a) Revenue collection
- b) Mobilizing resources for funding budgetary requirements
- c) Prepare and implement revenue enhancement plans
- d) Continuous liaison with National Treasury and Commission of Revenue Allocation

Sub Sector Priorities and Strategies

The sector strategies and priorities shown in Table 4.19:

3.3.6. Budget and Fiscal Affairs

Sub Sector Vision, Mission and Goals

Vision

Budgeting to achieve intended county program outcomes for long term impact.

Mission

To ensure the County and its entities budget their strategic objectives within the available resource envelope.

Goals

The sub-sector goals are to:

- a) To ensure that all programs and plans are well costed, budgeted and implemented within the available resource envelope.
- b) Ensure legality of budget and expenditure.
- c) Monitor planned programs for their intended outcomes.
- d) Monitor expenditure for remedial action.
- e) Ensure effective and efficient working relationship with key budget and planning stakeholders.

Sub Sector Priorities and Strategies

The sub-sector strategies and priorities shown in Table 4.21.

Table 3.28.: Budget and Fiscal Affairs Sector Priorities and Strategies

3.4. Agriculture, Livestock and Fisheries

The sector comprises of Crops, Livestock, Veterinary Services, Fisheries, Agricultural Value Chain Development, Agribusiness Directorates and Kenyatta Agricultural training centre based at Mariira farm. The Department runs the County-based programmes, County and national Government jointly funded programmes namely Agriculture sector development support programme (ASDSP II) and National Agriculture and Rural Inclusive Growth Project (NARIGP). The Department established a County Agriculture Sector Steering Committee (CASCOM) to facilitate implementation of food and nutrition Security. Further, the Department partners with large Scale Agro producers and processors like Kakuzi and, Demonte

3.4.1. Agriculture (Crops)

Sub Sector Vision, Mission and Goals

Vision:

A wealthy and food secure county

Mission:

To ensure sustainable food supplies and security

Sector Goal(s):

- a) Increase crop productivity and output
- b) Enhance accessibility of affordable inputs and credit to farmers
- c) Promote sustainable land use and conservation of the environment
- d) Enhance the role of youth and women as well as PWD in agriculture
- e) Promote sustainable food chains for value addition
- f) Enhance institutional capacity through efficiency and effectiveness in service delivery

Table 3.30: Agriculture (Crops) Sector Priorities and Strategies

Sector Priorities	Stra	itegies
Increase agricultural	a)	Capacity build farmers on appropriate and efficient agricultural practices
production,		and technologies
productivity and	b)	Enhance farm input e-subsidy programme
profitability	c)	Organize farmers into cooperative societies
	d)	Strengthen collaborative research on new technologies
	e)	Review land use and land subdivision for agriculture and commercial
		purposes
	f)	Promote use of irrigated agriculture
Improve food and	a)	Invest in irrigation agriculture
nutrition security	b)	Promote production of drought tolerant/resistant crops as alternative
		food sources
	c)	Promote on-farm water harvesting and efficient water utilization
		technologies
	d)	Train farmers on appropriate food production, preparation, utilization
		and preservation technologies
	e)	Promote crop insurance for staple food crops (maize, beans) in the
		county.
	f)	Promote home gardens and farm pharmacy in every ward

	g) Provide famers with quality farm inputs
Improve Soil	a) Promote soil testing and fertility management
fertility	b) On farm soil and water conservation
	c) Enhance access to farm inputs e.g., fertilizers, liming material
	d) Capacity building on safe use of Agro-chemicals
	e) Train farmers on organic farming
Improve Extension	a) Recruit and train agricultural extension officers
Service delivery	b) Use ICT in agricultural extension service delivery
	c) Engage industrial attachment students and interns to food farmacies
Control of emerging crop pests and diseases	a) Establishment strategic pest and disease control unit b) Operate plant clinics at the food farmacies and markets
Promotion of	Promote and support production and value addition of THVC and oil crops
production of	(soybeans, cotton, sunflower) in collaboration with processors and SMEs
Traditional High	
Value Crops	
(THVC) and	
industrial oil crops	
Create farmer owned agribusiness	 a) Carry out rapid assessment on stakeholders' roles and responsibilities in agricultural Value chains
	b) Establish collaborative students and youth led Agriculture Extension programme
	c) Support local farmer cooperatives to create 35 hubs one in each WARD
	d) Train and register local youth to support communities in setting up the hubs.
	e) Develop ICT based tools to achieve efficient data collection, analysis and information dissemination
	f) Build Institutional Capacity and ownership of Farm Hub
Promote innovation	Organize and participate agricultural shows and trade fairs
in the agricultural	
sector

3.4.2. Livestock Development

Vision, Mission and Goals

Vision

A transformed livestock department for economic prosperity and livelihood support.

Mission

To increase production, productivity and value addition of livestock.

Sub Sector Goals

- a) To transform livestock production into a commercially oriented enterprise
- b) Ensure sustainable livestock food security
- c) Create wealth from sale of livestock and livestock products.

Table 3.33.: Livestock Development Sector Priorities and Strategies

Sector Priorities	Strategies
Enhance extension service delivery	 a) Resource mobilization for livestock extension services b) Recruit livestock extension staff to cover all county wards and replace retirees c) Promote use of ICT in extension service delivery. d) Collaborate with livestock extension service stakeholders. e) Create a critical mass of livestock extension providers through Farm Hubs.
Increase value addition in livestock products	 a) Promote and support creation of value addition centers and cottage industries. b) Promote on-farm and off farm storage and transport facilities c) Capacity build on post-harvest losses and spoilage of livestock products and management
Livestock registration	 a) Train farmers on record keeping at farm level. b) Register animals with Kenya Stud Book and breed associations to increase livestock value c) Develop a livestock database to keep farmers and livestock data and information in a data management system for farm identification and traceability

3.4.3. Veterinary Services

Sub Sector Vision, Mission and Goals

Vision

A wealthy and food secure county.

Mission

To enhance livestock health and create wealth from livestock products.

Sector Goal

Wealth Generation and Food Security

Table 3.35.: Veterinary Services Sector Priorities and Strategies

Sector Priorities	Strategies
Control of livestock	a) Well-timed diseases reporting, vaccinations, controlled movement of
disease and pests	animals into the county.
	b) Customize existing disease control regulations and acts.
	c) Managing the population of stray dogs
	d) Sensitize farmers on good dog ownership practices
	e) Quick response to disease outbreaks
Installation of data	a) Training our field officers on quality data collection, submission and
management system	analysis.
	b) Create a knowledge bank with open data access.
Improvement on	a) Market infrastructure for live animals in Makuyu Sub- County by
marketing systems	construction of live animal market
	b) Renovation and upgrading of Makuyu slaughter house to an export
	slaughter house
	c) Form leather trades cooperative
	d) Construction of a tannery at the same area with Makuyu slaughter
	house
Improvement in	a) subsidized breeding material—Artificial insemination

3.4.4. Fisheries

Fishing is practiced in farms since there are no large water masses in the county. By 2013 there were 2380 households practicing fish farming with 2520 fish ponds covering an area of 714,000m2. The main fish species reared are Tilapia and Cat fish

Sub Sector Vision, Mission and Goals

The directorate of fisheries is mandated to provide for the exploration, exploitation, utilization, management, development and conservation of fisheries resources, in the county.

Vision

Fish a dietary item in every household; More fish is a healthier and wealthier population.

Mission

To facilitate sustainable management and development of fishery resources and products for wealth creation

The directorate of fisheries has the following goal:

To ensure increased and sustainable fish production and utilization by properly managing Murang'a county fishery resources

Sub Sector Priorities and Strategies

Table 3.38.: Fisheries Priorities and Strategies

Priorities	Strategies	
Increase fish	a) Access to quality fingerlings	
production	b) Access to quality fish feeds available through farmer co-operatives	
	c) Promote water harvesting technologies	
	d) Promote good aquaculture practises	
	e) Promote fish marketing and value addition through fish farming of	co-
	operatives	
Fish quality	a) To disseminate aquaculture value chain information to value chain	
assurance marketing	actors	
and value addition	b) To enforce established fish quality assurance regulations, IOE standard for fish processing other international guidelines (for all fish products)	
	c) Promote fair fish trade regulations trade conventions/agreements	-
	d) Improve marketing infrastructure, such as cold storage, by supporting	ıg
	producer organizations and information on fish markets	O
	e) Develop local market for our aquaculture products (to stimulate	
	demand) through agricultural trade fairs, agricultural shows, field day and "Eat more fish campaigns".	ys,
	f) Promote diversification and value addition of aquaculture products	
		h a
	implementation of quality standards of aquatic products to protect the	
	public health as well as improve acceptability of aquaculture product	.۵.
	h) Promote fish producers branding their fish products in order to aces	
C	better prices.	
Sustainability of	a) Use of technologies that ensure water and environmental resources a	are
fisheries resources	sustainably managed like water recycling.	
	 Develop regulations applicable fisheries policy and fisheries regulations controls for aquatic bio-security 	ons
	c) Conduct monitoring control surveillance surveys on major wa bodies in the county	ter
	d) Promote stocking of appropriate fish species in county waters	to
	increase fish production in over fished water bodies.	م است
	e) Conform to wetland and watersheds conservation standar	ras
	appropriate legislation and regulations in place	
	f) Continuous monitoring control and surveillance of fisheries resources	ces
	and publish data that are up to date	
Improve access to	a) Promote the use of ICT technology in order to make farmers access	
fish farming advisory	fish market and fisheries extension services	
services	b) Recruitment of staff in the fisheries sub sector to all sub counties	
	c) Support fish farmer trainings, on farm demos and field demonstration	ns,
	capacity build producer organizations	
	d) Promote collaboration among sector stakeholder doing similar	
	programs	

e) Support the mobility of fisheries extension staff v gadgets, motor cycles and improve work environ counties

3.4.5. Agribusiness, Value Addition, Marketing and Agro Small Micro Enterprise Agricultural Marketing

Vision, Mission and Goals

Vision

A vibrant agricultural driven economy

Mission

To promote effective and efficient service delivery

Goals

They include:

- a) To formulate policy to support development and growth of agricultural marketing produce and product
- b) To increase/improve market access, food safety and fair trade among players in value chain
- c) To develop a modern market infrastructure for efficient trade and sustainable management
- d) To enhance involvement of the Youth and women in agribusiness
- e) To improve access to agricultural technologies, innovation and information
- f) To increase competitiveness of agricultural product locally, regionally and internationally
- g) To Promote value addition and utilization of agricultural products
- h) To promote commercialization and growth of agricultural small enterprises (Agro-SMEs)
- i) To develop and enforce standards for agricultural produce
- j) To Promote collective marketing of agricultural commodities
- k) To Enhance access to affordable credit
- 1) To enhance efficient use of ICT in marketing/digital marketing
- m) Consolidate Taxes, levies and fees

Sub Sector Priorities and Strategies

Table 3.41.: Agribusiness, Value Addition, Marketing and Agro Small Micro Enterprise Agricultural Marketing Sector Priorities and Strategies

Priorities	Strategies
a) Value Addition	a) Support county-based Processing and Packaging Hub like
Processing	Horticultural Pack house, Milk processing Plant, Coffee Roasting,
Innovation	Avocado processing plant, warehouses, Hide and skin,
Adoption	processing, slaughter houses, poultry processing, tea value
	addition, vegetables value addition, fruit factory
	b) Support Registration of SMEs Agribusinesses, certification on
	global GAP

		\	C LCNAT OIL 1 CLL 1 1 C
		c)	Support SMEs with modern processing technologies
		d)	To formulate policy to support development and growth of
			agricultural produce Value addition, processing and Marketing
		e)	Provide logistical support to the SMEs
		f)	Support SMEs business incubation
		g)	Capacity building on good management
		h)	Cascade policy on value addition
b)	Transformation	a)	Provide Business Incubation Advisory
	And	b)	County Flagship projects and priority enterprises
	Commercializatio	c)	Transform co-operatives into business entities
	n of Agriculture	d)	To develop an efficient and reliable transport system for
	· ·		agricultural produce and products
		e)	Develop and enforce Market standards for agricultural produce
			to conform to Local, Regional and international Standards.
		f)	To Promote collective marketing of agricultural commodities
c)	Youth And	a)	address key challenges that hinder youth and women from
-,	Women in	,	tapping into the immense potential in the agricultural sector.
	Agribusiness	b)	Linkage with SLAE and Farm Hubs.
	71611043111633	c)	Enhance involvement of the Youth and women in agribusiness.
		d)	Enhance access to affordable credit
		e)	To enhance efficient use of ICT in marketing/digital marketing.
		f)	Cascade National youth strategy
		l .	
		g)	Hold local and international Youth entrepreneur's forum
		h)	Entrepreneurship training.
		i)	Developing Bankable agribusinesses proposals.
		j)	Technical training and value addition.
		K)	Business modelling to start and run the agribusiness including record
		1)	keeping, statutory requirements and compliance.
		1	Value Chain and Business Linkages Advisory.
			Financial literacy training and investor readiness programs.
		-	
		0)	Provide case studies to foster exchange of learning and inspiration
		p)	among Value Chain groups.
		q)	Virtual learning and advisory support via computer platforms or
		r)	mobile to support program beneficiaries during and post COVID -19
		s)	scenario.
		t)	Onsite learning and advisory support will be provided once the
		u)	County Business Incubation Hubs are established

N N 1 1 1 5	
d) Market System Development	a) Promote effective input delivery and information to smallholder farmers
Development	b) Carry out market intelligence surveys to various Local and
	international markets,
	c) Installation of digital marketing and trading strategies though a
	County Agribusiness App customized to provide
	d) Develop effective communication strategies for real time market
	information sharing, use of Apps,
	e) Development of Niche markets
	f) Establish central electronic ward agribusiness service centre
	g) Organize market for emerging products and special crops
	h) To enhance efficient use of ICT in marketing/digital marketing.
	i) To develop an efficient and reliable transport system for
	agricultural produce and products
	j) Support SMEs with guarantee minimum price,
	k) To increase/improve market access, food safety and fair trade
	among players in value chain
	I) To develop a modern market infrastructure for efficient trade
	and sustainable management
	m) Organize Business to Business Forums and Networks, Trade
	Shows, Business tours
	n) Design communication strategy to cascade information gathered
	through market intelligence surveys to the Farmers and Value
	chain actors.
e) Institutional	a) Change management of staff
Capacity	b) Capacity building cooperatives
Development	c) County agriculture Sector data management, analysis, impact
and Sustainability	analysis
	d) Initiate Formation of Viable co-operatives through commodity-
	based community Mobilization
	e) Revitalization of co-operatives
	f) Growth and development of co-operatives
	g) Transform Co-operatives into Business entities.
	h) Create Strategic partnership with interest like partner
	i) Capacity build on resource mobilization
	j) Flag business opportunities through Trade Fairs,
	k) Train cooperatives on business management and strategic
	leadership
	Organize exchange programmes
f) 5 Administration	a) Equip office with modern ICT equipment
	b) Provide operational Resources

c)	Periodical staff training
d)	Effective coordination and liaison with other sector provider
e)	Clear performance targets and implementation framework
f)	Partnership and stakeholder collaboration

3.4.6. Value Chain

Sub Sector Vision, Mission and Goals

Vision:

A wealthy and food secure county

Mission:

To develop and exploit agricultural resources and provide extension services

Subsector Priorities and Strategies

Table 3.44.: Value Chain Sub Sector Priorities and Strategies

Sector Priorities	Strategies
Organic	Development of an agro ecology strategic plan
agriculture	Development of an agro ecology action plan for 2023/020
development	Implementation of plan of action with priority on
program	a) Baseline survey conducted and advocacy for partnership enhanced
	b) Key champion staff and lead farmer capacity development
	c) Setting up of model farms on organic agriculture
	d) Setting up and operationalizing of proposed organic board
	e) Operationalizing of a multi stakeholder platform
Policy and legal	Finalize incomplete policies on food and nutrition/CASCOM, mangoes,
frameworks	environmental policies and laws etc. and conduct public participation
	Ensure legislation is completed
	Handle emerging needs on policies in veterinary (leather development),
	fisheries and irrigation
Certification and	a) Access funds and roll out Global Gap and Organic EU certification for
development of	export avocado in next 3 years
export crop	b) Monitor implementation of mango and dairy policies
value chains	
Extension	a) Draft the. Climate smart Agriculture (CSA) action plan and validate for
support to	implementation
sustainable	b) Support and coordinate partner departments to complete Climate action
agriculture	plans
	c) Activation of CSA MSP planned activities through partnership

3.4.7. Coffee Development

Sub Sector Vision, Mission and Goals

Vision

A transformed coffee business

Mission

To empower coffee farmers and other stakeholders for the benefit of all

Goals

- a) To create an enabling environment for development of coffee
- b) To increase coffee production and productivity
- c) To improve coffee quality
- d) To expand coffee markets
- e) To enhance institutional efficiency and effectiveness in the implementation and service delivery to the coffee farmers

Sub Sector Priorities and Strategies

Table 3.47.: Coffee Development Sub Sector Priorities and Strategies

Sector Priorities	Strategies
Increase coffee production	a) Enhance extension services
	b) Support leaf and soil analysis
	c) Initiate farm input subsidy programme
	d) Promote use of ICT in extension services
	e) Establish coffee nurseries to produce modern varieties
	f) Engage youth groups in coffee production and marketing
Digitization, automation	a) Digitize the weighing of coffee at the primary processing
and improvement of	factory and transmission of data
primary processing	b) Automate data management and communication
	c) Support compliance with environmental requirements
	d) Implement waste water regulations and the OSHA
	requirements in the coffee factories and estates
Murang'a Cooperative	a) Restructure the Union to meet its mandate as per its articles of
Union (MCU)	association

		11 14612
	b)	Use MCU's assets as collateral for financing farm inputs
Coffee markets	a)	Support coffee certification
improvement	b)	Promote targeting of niche markets
	c)	Promote roasting, grinding, packaging and branding of coffee
		by the factories/societies
Licensing	a)	Review coffee movement permits and licenses
Promote coffee value	a)	Support establishment of coffee roasting units in the coffee
addition		factories
	b)	Modernize the processing equipment – Promote use of
		ecological pulpers, drying green houses
	c)	Promote diversification at the factory level; Promote
		utilization of local resources at the factory to generate side
		income
Promote youth and	a)	Train youth in Agro-chemicals use, pruning and grafting
women engagement		techniques
	b)	Enforce gender consideration in the election of management
		and supervisory committees as required by law
Diversification		Facilitate the coffee factories diversify to other income streams

3.4.8. KATC Mariira Farm

Kenyatta Agricultural Training Centre also known as Mariira farm is located in the Kigumo sub-county and it's the only ATC in Murang'a County. It's mandated to train farmers on modern farming technologies through residential and non-residential training. The ATC is also a breeding centre and bulking of fodder is done at a large scale for distribution to farmers. In collaboration with other stakeholders in the county, the ATC hosts two annual farmers' field days and exhibitions which target farmers from the whole of Murang'a County and the environs. The ATC seeks to diversify its operations to include Thai farm at Kambirwa, where dry land farming and related management of ASAL crops will be established in order to train farmers from the lower part of the county.

Sub Sector Vision, Mission and Goals

Vision:

A center of excellence for training farmers, staff and stakeholders

Mission:

To train farmers staff and other stakeholders on relevant adaptive agriculture technologies and skills through teaching, demonstration, and provision of training facilities.

Sector Goal(s):

Wealth Generation and Food Security

Sub Sector Priorities and Strategies

Table 3.50.: KATC Mariira Farm Sub Sector Priorities and Strategies

Sector Priorities	Strategies
Student-Led Agricultural	a) Jointly with Murang'a University of Technology, develop SLAE
Extension (SLAE)	aligned academic curriculum to include agribusiness incubation
	technology and extension Farm Hubs
	b) Build and enhance partnership between Murang'a University of
	Technology, KATC Mariira, JKUAT, KALRO and the private
	sector to initiate agribusiness practices
Farmers, staff and	a) Hold residential and non-residential trainings
stakeholders' capacity	b) Establish of training crops demo plots
building	c) Hold exhibition and field days
	d) Conduct farmers outreaches, open days and training tours
	e) Conduct tailor made youth trainings
	f) Provision of training facilities to other stakeholders

Provision of quality seeds and planting materials	 a) Establishment of a fruit tree nursery b) Training of fruit tree nursery operators c) Bulking of fodder crops including modern and high value fodder crops including bracharia and super Napier
Agribusiness and value addition	 a) Establishment and furnishing of an agro-processing unit b) Establish and/or maintain a model farm on commercial enterprises like dairy, avocado, coffee, apiculture c) Expansion of irrigation infrastructure from the existing one hectare to 4 hectares
Augmenting Agriculture extension and promoting youth in agriculture	 a) Establish agriculture information and advisory resource centre b) Create an appropriate mobile application for technical advisory services and market linkages c) Conducting information sourcing and repackaging d) Make agricultural motivational talks in schools and colleges to create positive attitude and perceptions towards agriculture
Research and innovations	 a) Participatory research and trainings b) Partner with Murang'a University of Technology and other research institutions and innovators in promotion of adaptive technologies to farmers c) Provision of land for research and on farm trials d) Hold collaborative trainings and exhibition on adaptive technologies

3.5. Roads, Housing and Infrastructure

3.5.1. Sector Vision, Mission and Goals

Vision

An integrated and sustainable infrastructure supported by modern technology

Mission

To provide efficient, affordable and reliable infrastructure

Goal

The overall goal of the department is to manage and maintain state of the art infrastructure

3.5.2. Sector Priorities and Strategies

Table 3.52.: Roads, Housing and Infrastructure Sector Priorities and Strategies

Sector Priorities	Strategies
Improve road network	a) Upgrading rural & town roads
	b) Rehabilitation of existing roads
	c) Opening of new access roads
	d) Resurvey and upgrade feeder roads
Connectivity	a) Constructing of foot bridges, box culverts & bridges
	b) Rehabilitation of bridges, footbridges and box culverts
	c) improvement of transport infrastructure to ensure access to
	residential zones
Security	a) Installation of solar street lighting, floodlighting and maintenance
	of existing ones
Major town aesthetics	a) Bituminous surfacing and cabros installation to major town, roads
and cleanliness	and parking
D	
Development of transportation policy	a) Formulation of a county transportation policy
Improvement of public	a) Construction of modern bus parks in all designated municipalities,
transport	towns and markets
•	b) Development of Non-Motorized Transport infrastructure
Promotion of air	Construction of an airstrip at Kwa Ndege area at Kambirwa
transport	construction of all anstrip at two reacte area at ramon wa
Improvement of	Refurbishment of government housing scheme at Murang'a and
existing institutional	Kandara
houses	
Development of	a) Introduce use of ABT and support Housing construction
affordable housing	b) Development of incentives and subsidies to attract private sector
	investment in housing
	c) Enhance collaboration with National Government
	d) Establishment of affordable housing scheme e.g., tenant purchase
11.1	and PPPs
Urban renewal and redevelopment	a) Strengthen management of government houses/buildings
program	b) Condemn and phase out old buildings/structures
F - 20. a	c) Repossession of government houses
C	d) Develop asset register for county houses
Construction of county government housing	a) Preparation of plans for the County Headquarters
and support	b) Construction of the smart county headquartersc) Construction of official residences for the governor, deputy
infrastructure	
	governor and assembly speaker
Promote use of clean	d) Review and document use of renewable energy
energy	

<u></u>		
	e)	Develop and promote use of biogas, solar, energy saving jikos
		and mini hydro energy

3.6. Trade, industrialization, Tourism and Cooperative Development

The Department is composed of trade Industry and investment, Tourism, and Cooperative Development

3.6.1. Trade, Industry and Investment

Sub Sector Vision, Mission and Goals

Vision

A vibrant and industrial business hub

Mission

To provide a conducive environment for growth in trade and industrial development.

Goals

- a) Developing trade policies and legislation
- b) Promote retail and wholesale markets
- c) Develop County export programmes
- d) Provide capacity building support to micro, small and medium enterprises
- e) Provide an enabling environment for growth in trade, investment and industry
- f) Promote fair trade practices and consumer protection
- g) Promote public private partnerships
- h) Linking local producers with export market
- i) Enhance participation in trade and investment expo
- j) Adoption of technology in trade- for value addition
- k) Capacity building on digital trade/e-commerce

Sub Sector Priorities and Strategies

The sub-sector priorities are summarized in Table 4.40

Table 4.41.: Trade Industry and Investment sector Priorities and strategies

Priorities	Strategies
Construction of	a) Construction and renovation of markets sheds and collection
markets and	centers.
provision of basic	b) Construction of sanitation blocks,
amenities in markets	c) Availability of piped clean and safe water.
	d) Provision of lighting structures for security and extended
	hours.
	e) Creation of access for PWD's within the market. Such as
	ramps.
Construction and	a) Upgrade all feeder roads leading to markets
upgrading of road	b) Grading of all roads leading to the market areas
networks to markets	c) Constructed road network within the County.
Facilitate affordable	a) Government supported Sacco
and accessible credit	b) Negotiation with financial institution for provision of cheap

facilities to traders.	loans.
	c) Creation of networks to Youth, Women and PWD to
	government/NGO funding.
	d) Creation of the Murang'a County Economic Stimulus fund
Promotion of	a) Identify products for possible branding and promotion
products and market	b) Establish market linkages for various commodities
linkages (both local	c) Promote and capacity build e-marketing including e-portal
and international)	and video promotion
and international)	d) Institute interventions for tea/coffee/avocado and other crops
	e) Dairy development and promotion
	f) Identify opportunities for participation in Trade and
	investment expos
	g) Enhance Inter- County trade
	h) Promote access to product standardization at KEBS
	i) Promotion of value chains
	j) Spur Mt. Kenya and Aberdares Region Economic Bloc
	k) Export development and promotion
Empowerment of	a) Training of traders on business finance, sales and
traders to achieve	management
business efficiency	b) Encourage traders to form producer business groups for self-
	support
	c) Create awareness on available targeted opportunities for
	youth and women
	d) Collaboration with the CAK for new rules and
	implementation to ensure level playing ground
	e) Introduce digitized trade licensing system
	f) Providing accessible and affordable loans for PWDs in
	business, agriculture and cooperatives sectors
	a) Offering incentives for PWDs in this sector through.
	b) § Lowering the taxes for PWDs or exempting them
	altogether; and/or
	c) § Reducing the requirements of setting up businesses for
	PWDs.
	d) § Facilitate the dissemination of information on AGPO by
	making it easily available for PWDs through Sub-County
	offices
	e) § Provide accessibility to county markets by organizing stalls,
	tiling and or use of cabro blocks along the market walkways.
Establish trends on	a) Sub-county market research,
trade activities in the	b) Establishment of data hubs for investors
County	c) Creation of data driven analysis for County advantages.
	d) Create a feedback database to link traders with the County.
	e) Development of county competitiveness index i.e., talent,
	infrastructure, cost of setting up a plant.

	f) Digitization of the data system
Attract investors to	a) Investors conferences
Murang'a County	b) Encourage growth of cottage industries
	c) Implementation of the local content policy
	d) Provision of incentives to existing and new investors.
	e) Creation of Murang'a business round table
	f) Creation of Murang'a County Development Authority
	g) Promotion of renewable energy sources
	h) Private- Public partnerships and business forums
Preparation and	a) MCG Trade Policy
operationalization of	b) 10- year Departmental strategic plan

3.6.2. Tourism

Sub Sector Vision, Mission and Goals

Vision

A tourist destination of choice

Mission

To promote unique tourism experience

Sector Goal(s):

- a) To develop a Tourism Master Plan
- b) To develop and promote Tourism enterprises
- c) To steward a conducive environment through a legislative framework
- d) To encourage investment of hospitality related enterprises
- e) To diversify development of tourism products
- f) To encourage domestic tourism to tour the county in aim of bolstering county revenue stream.

3.6.3. Cooperatives Development

The Cooperative Development Sub Sector is composed of Cooperative Development and Cooperative Audit.

3.6.3.1. Cooperative Development

Sub Sector Vision, Mission and Goals

Vision:

Vibrant, professionally managed cooperative movement

Mission:

To nurture a vibrant, ICT-compliant and professionally run cooperative societies

Goal

Create and promote an enabling environment for competitive and professionally managed cooperative societies

Sub Sector Priorities and Strategies for FY 2023/2024

Table 3.59.: Cooperative Development sector Priorities and strategies

Sector Priorities	Strategies
Enhance Cooperative capacity, education, training and research Promote cooperative production, value addition and marketing	 a) Integrate cooperative development of uniform curriculum into the County learning institutions such as polytechnics b) Train/sensitize cooperative management, staff as well as cooperative members a) Facilitate Cooperative societies to engage in production, value addition and marketing of their products/services b) Streamline market linkages in value chain c) Facilitate establishment of bulk storage facilities d) Facilitate creation of credit schemes e) Develop framework to promote contract farming f) Creating enabling environment for PPPs and BPOs with established manufacturers in order to eject new capital and enable technology transfer g) Introduce and strengthen cooperatives including for farm
	produce such as avocadoes and macadamia, mangoes, oranges and new oil crops such as soya beans canola, sunflower and cotton
Align legal and regulatory framework to the Constitution of Kenya 2010 and address the dynamic environment of Cooperative movement in the County	 a) Establish and support sectoral forums to discuss and resolve issues in the cooperative sub-sector b) Provide framework for the co-operative sub sector service platform c) Establish institutional framework for facilitating co-operative self-regulation through its structures
Promote platform for the advancement of ICT and Innovation in cooperative movement	 a) Facilitate development of shared e-platform for cooperative movement b) Capacity build cooperatives to embrace modern technology, ICT and use of shared platforms
Create and promote conducive environment for competitive and professionally managed cooperative societies	 a) Facilitate and promote registration of cooperatives b) Develop regulations that guide the graduated levels of growth and development such as vetting and tenure for cooperative leadership c) Promote application of alternative dispute resolution mechanism

Mainstream cross-cutting issues including gender, youth and women, climate and HIV AIDS in cooperative movement	 a) Support development of environment conservation policies for cooperatives b) Promote gender responsiveness in the cooperative movement c) Facilitate forums for sensitization on HIV/AIDS, climate change and substance and drug abuse
Promote cooperation, collaboration and linkages among cooperative movements and stakeholders through networks at all levels	 a) Facilitate collaboration and linkages with cooperatives and stakeholders for the benefit of the movement b) Establish Cooperative Development Fund c) Promote establishment of a revolving fund kitty d) Promote establishment of intra and inter-County platforms for collaboration e) Introduce cooperative societies for avocadoes, macadamia, soya beans, sunflower etc.

3.6.3.2. Cooperative Audit

Cooperative Audit draws its mandate from Section 25 of the Cooperative Society Act, Cap. 490 and Cooperative Societies Rules No. 14-19 which require all registered cooperatives to be audited at least once every year. Ensure correctness of disclosures in accounts, adherence to statutory requirements, international accounting and auditing standards;

Vision, Mission and Goals Vision:

Efficient agency providing effective auditing services to Cooperative Societies

Mission:

To provide efficient and effective accounting and auditing services to cooperative societies

Goal

To implement policy and operational guidelines to mainstream good governance in management of cooperative movements

Sub Sector Priorities and Strategies for FY 2023/2024

Table 3.62.: Cooperative Audit priorities and strategies

Sector Priorities	Strategies
Implement policy and operational guidelines on cooperative audit services	 a) Develop and review Cooperative Audit Policy and Operational Guidelines b) Develop social, environmental and value for money audit guidelines c) Provision of tax consultancy and advocacy on behalf of cooperative societies d) Provision of audit extension services to the societies e) Train/sensitize cooperative management and staff on accounting and audit best practices f)
Promote good governance in cooperative societies	 a) Provide cooperative financial and investment advisory services b) Preparation and review of accounts reporting/presentation formats c) Promote audit services and enforce audit requirements and standards d) Ensuring correctness of disclosures in accounts and adherence to statutory requirements, international accounting and auditing standards
Ensure effective and efficient service delivery	 a) Establish and support sectoral forums to discuss emerging issues in accounting and audit

	 b) Interpretation of accounts and timely advice on financial matters c) Registration of societies audited accounts d) Conduct research, prepare and disseminate technical/professional updates on cooperative accounting and audit
Regulate and monitor compliance with	a) Facilitate development of shared e-platform for cooperative movement
provisions of cooperative societies	b) Capacity build cooperatives to embrace modern technology, ICT and use of shared platforms
Act and subsidiary	c) Carry out inquiries on financial affairs and management of
legislation	cooperative societies

3.7. Health and Sanitation

3.7.1. Sector Vision, Mission and Goals

Vision

A healthy and Nationally Competitive County

Mission

To provide quality health care services that are accessible, equitable and sustainable to the population of Murang'a County and beyond.

Sector Goal

Better health in a responsive manner

Strategic goals/Objectives of the sector

The following strategic objectives aim towards the realization of the Murang'a County Health Sector Vision:

- a) Promote Universal Health Care (UHC)
- b) Support optimal health and survival of pregnant mothers and babies
- c) Strengthen advocacy for social health insurance coverage
- d) Strengthen the integrated surveillance and health services automation systems
- e) Adopt and implement nutrition interventions affecting pregnant mothers, school children, and the vulnerable
- f) Strengthen community nursing for improved health services
- g) Strengthen collaboration with private and other sectors that have an impact on health

3.7.2. Sector Priorities and Strategies

Table 4.49.: Health and Sanitation Sector Priorities and Strategies

Priorities	Strategies	
Development and	a) Construction, Rehabilitation and equipping of health facilities	
equipping Health	b) Acquisition, Modification, renovation or replacement of equipment	
Infrastructure	at the workplace	
	c) Replacement of asbestos roofing with recommended iron sheets	
	d) Provision of adequate medical, laboratory and cold chain	
	equipment in all health facilities	
	e) Provision of power backs in all level 2 & 3 health facilities with	
	maternities	
	f) Develop a cancer treatment facility	
	g) Establish a palliative care ward	
	h) Establish mental health rehabilitation centres	
	Construct an Ultra-modern county health products store	
	j) Adherence to IPC policies on waste management	
Provide	a) Promote Universal Health Care (UHC)	
comprehensive and	b) Support optimal health and survival of pregnant mothers and babies	
quality health services	c) Strengthen advocacy for social health insurance coverage	
	d) Strengthen the integrated surveillance and health services	
	automation systems	
	e) Adopt and implement nutrition interventions affecting pregnant	

	,
	mothers, school children, and the vulnerable f) Upgrading health facilities
	g) Strengthen community nursing for improved health services h) Provision of adequate and well-equipped ambulances i) Strengthen Community strategy and school health program j) Surveillance of diseases targeted for eradication and elimination
	k) Health promotion activities
	Strengthen intersectoral collaboration
Promote affordable healthcare services	a) Partner and lobby the National Government and development partners to fund and implement the projects.b) Enhance NHIF program
Improve U	, 0,
Improve Human resource capacity	a) Recruit and train medical staff
Upgrade Medical	a) Adherence to annual procurement plan
products and technologies	b) Establish an electronic inventory management platform
Automate Health information	Procure health management and information system
Enhance Leadership and Governance	Staff development through short courses and training
Strengthen adherence to regulations	a) Licensing and routine examination of food handlers and food outletb) Routine inspection and certification of Buildings
Strengthen policies on People living with Disabilities (PWDs)	a) Promote universal accessibility of health services in the entire County by equipping all health facilities with sign language interpreters.
	b) Provide health commodities for children with autism, sunscreen lotions for persons with albinism and such other commodities that might be necessary for persons with disabilities.

3.8. Lands, Physical Planning and Urban Development

3.8.1. Lands, Physical Planning and Urban Development

Sector Vision, Mission and Goals

Sub Sector Vision

Sustainably planned and managed land uses

Sub Sector Mission

To promote professional support to planning and management of land uses

Subsector goals:

Ensure effective management of land and easy access to land ownership information Ensure controlled development in urban and market centers Ensure safe, accessible and sustainable services for urban populations.

Sector Priorities and Strategies

Table 4.51.: Lands, Physical Planning and Urban Development Sector Priorities and Strategies

Sector Priorities	Strategies
Support Planning and	a) Prepare municipalities and urban centres development
construction of County	master plan
Headquarters	b) Prepare part development plans for county headquarters
Construct and Upgrade	a) Construct drainage systems and urban centres
drainage and garbage collection points	b) Build sustainable garbage collections centres in
Digitization, Digitalization and	a) Digitizing all Market Plans and Zoning Plans.
Automation.	b) Geo-referencing of all Market Plans
	c) Establishment of a GIS Laboratory (Hardware and Software)
	d) Automation of Development Applications, Market Plot files and County Cadastre Records
County Spatial Plan	a) Approval and Implementation of County Spatial Plans and
Kandara IUSDP	Urban Integrated Structure Development Plans
Kangari IUSDP	b) Preparation of Local Physical Development Plans (Zoning
Maragua IUSDP	Plans) for Kenol, Kangari, Maragua and Kangari
Murang'a IUSDP	c) Preparation of County Department Control Bill
A2 Corridor IUSDP	d) County Valuation Roll and Rating for Property
Succession and Titling.	a) Establishment of alternative dispute resolution mechanisms
	at all sub-counties.
	b) Re-planning of all market centres and public plots.
	c) Solving of boundary disputes and opening of access roads.
	d) Referral of succession cases to county attorney office for
	drafting of petitions.
	e) Planning and titling of MCG land (Del Monte)
Office Management and	a) Establishment and staffing of the Office of County Director

Human Resource Development.	of Survey b) Establishment of County Land Administration Office. c) Employment of Physical Planners (2). d) Continuous Professional Development of Staff. e) Acquisition of Two Vehicles for Fieldwork. f) Purchase Office Equipment such as Plotters, AO Scanners, Computers, Software, Servers and W. A.N. g) Acquisition of Office Furniture such as Modern Tables, Chairs, Filing Cabinets, Mao Cabinets. h) Preparation/Development of Customer Driven Service
	Chairs, Filing Cabinets, Mao Cabinets.
	Charter.

3.8.2. Murang'a Municipality

Sub Sector Vision, Mission and Goals

Vision

A model vibrant municipality

Mission

To provide a sustainable and efficient municipal service for holistic municipal social and economic growth

Sub Sector Priorities and Strategies

Table 3.66.: Murang'a Municipality sector Priorities and strategies

Priori	ty	Strategies
pla de	nhance town anning and evelopment ontrol	 a) Prepare zoning plans b) Formulate development control bill c) Fast track formulation and approval of Integrated Strategic Development Plan for Murang'a Municipality reviewed boundary d) Establish affordable housing scheme through PPP e) Improve government houses under the management of the
an ma	tablish prudent nd sound revenue anagement and nancial systems	 Municipality a) Map all revenue streams b) Fully automate revenue collection c) Train staff on revenue management, best practices in financial management d) Institutionalize public participation in the budget process e) Fast track approval of Municipal by-laws
eff eff wa	rovide stainable, ficient and fective solid aste management rvices	 a) Fully implement the Municipality waste management policy b) Establish proper waste transportation system c) Rehabilitate/improve the Karii dumpsite to a Transfer Station as identified in the integrated waste management plan for transfer to Mitumbiri. d) Encourage waste separation at source, reduce, recycling, and re-use e) Privatize waste collection in order to increase waste collection coverage and frequency. f) Enhance capacity of waste management department to improve waste collection systems, supplying it with appropriate easy to service equipment and recruiting requisite qualified personnel. g) Install street bins in appropriate locations in town. h) Encourage Public Private Partnership in solid waste management. i) Designate neighborhoods solid waste transfer stations. j) Involve public and private developers and businesses in clean-up activities as an effective way in solid waste management. k) Identify and designate land for waste drop-off within the Municipality satellite towns l) Designate waste collection sites within the Municipality and within

		m)	Promote waste collection by registered neighborhood associations within the Municipality with youth associations given prominence
4.	Provide sustainable,	a)	Construct/maintain storm water drains along all roads within the Municipality.
	efficient and	b)	Partner with MUWASCO to develop and extend the sewer
	effective liquid		reticulation to cover the entire Municipality.
	waste management	c)	Advocate for and enforce fencing of the shallow wells to protect
	services		them from pollution.
5.	Provide sustainable	a)	Sustainably upgrade and maintain town access roads
	robust service	b)	Improve/upgrade bus parks, streets and walkways
	infrastructure,	c)	Improve pavements and drainage systems
	drainage and	d)	Improve/upgrade mortuaries/funeral homes
	sanitation facilities	e)	Improve offices within the Municipality
6.	Enhance integrated	a)	Establish community health units
	disease	b)	Engage community health volunteers
	surveillance,	c)	Train community health volunteers
	improve food and	d)	Establish community-based health information
	water quality	e)	Sensitize staff on priority disease surveillance areas
	control services	f)	Upgrade/improve mortuaries, funeral homes
	and promote	g)	Manage and maintain cemeteries
	community health	h)	Increase inspection and licensing of food establishments
		i)	Enforce food safety laws and prosecute offenders
7.	Enhance	a)	Increase inspection and licensing of quarries within the Municipality
	environment and	b)	Institutionalize Grievance Redress Mechanism
	social safeguards	c)	Institutionalize and enforce OSHA standards
	protection within	d)	Undertake ESSIA and NEMA certification before initiating any
	the Municipality		project
		e)	Enforce NEMA, WaRMA and other environment regulations
8.	Provide and	a)	Maintain and protect social recreational parks and open spaces
	properly maintain		within the Municipality
	recreational,	b)	Improve/upgrade social halls within the Municipality
	educational and	c)	Beautify social parks and open spaces within the Municipality
	social facilities	d)	Improve/upgrade education facilities
	within the		
	Municipality		
9.	Provide platform	a)	Institutionalize public participation
	for democratic	b)	Map municipal stakeholders for active engagement
	participation of	c)	Develop framework for public private partnership
	residents in the	d)	Train staff on public participatory processes, community score cards
	matters of the		and report writing
	Municipality		
10.	Institutionalize	a)	Engage additional technical staff in the various sections within the
	capacity and		Municipality
	quality public	b)	Capacity build/train staff
_	·		

services	c)	Fast track the review and approval of Municipal organizational
		structure
	d)	Institutionalize quarterly public participation fora and mechanisms
		for integrating public participation fora submissions
	e)	Provide adequate office space and accompanying infrastructure
		including internet access
	f)	Provide adequate transport logistics for revenue collection,
		development control and enforcement
	g)	Substantially appoint seconded staff to the respective positions
		based on the organizational structure in consultation with the
		County Public Service Board
11. Provide	a)	Timely preparation, submission and approval of Municipal
framework for		Integrated Development Plan (IDeP), Strategic Plan, Municipal
evidence-based		budget and other Municipal policy documents
budgeting and	b)	Establish municipal database/fact sheet
decision making	c)	Map municipal revenue sources/streams with projections
	d)	Institutionalize public participation on strategic planning and budget
		process
	e)	Train staff on public budget process
	f)	Institutionalize framework for monitoring and evaluation, data
		dissemination and feedback

3.9. Education and Technical Training

3.9.1. Education (ECDE)

Sub Sector Vision, Mission and Goals

Vision

Enhanced quality early childhood education

Mission

To provide a conducive learning environment in ECDE centers.

Sub sector Goals

- a) Enhance curriculum implementation and supervision.
- b) Improve teachers' skills.
- c) Enhance quality teaching/learning in all our centers by maintaining qualified teachers.
- d) To provide clean hygienic child friendly classrooms/toilets.
- e) Contract/Repair ECDE center classroom and fully equip them.
- f) Create a good and safe playing environment for the learners.
- g) To ensure children imagination, physical, cognitive & emotional strength is enhanced.
- h) Improve the nutrition value of our ECDE learners
- i) Ensure access, retention and completion of our ECDE learners.
- j) Improve skills and talents among the young children at this early age.

Sub Sector Priorities and Strategies

The sector priorities and strategies are summarized in Table 4.55

Table 4.55.: Education (ECDE)| Sector Priorities and strategies

Sector Priorities	Strategies
Curriculum implementation	a) Train ECDE teachers on curriculum development and reforms
and supervision	(CBC).
	b) Enhance digital learning and implementation
	c) Provision of adequate and relevant teaching and learning
	materials
	d) Enhance monitoring and supervision
	e) Recruit additional teachers to meet the recommended teacher
	pupil ratio of 1:25
	f) Enhance quality teaching and learning in all ECDE centres
	g) Ensure Completion, retention, progression and Transition
	from pre-primary to primary

Feeding program.	Maintain and improve the feeding program for ECDE learners
Digital learning and TAYARI	Integrate digital and Tayari program learning activities
Program	
Play and rest materials	Provide play and rest materials in ECDE centres
Absorption of ECDE teachers	To implement the COG and SENATE recommendations on
on permanent and	employment of ECDE teachers
pensionable terms of service	
Free ECDE tuition	To establish capitation for ECDE learners to facilitate free pre-
	primary education
Co-curricular activities	Provide facilitation to ECDE pupils in festivals from Sub County
	to the national festival
Play and rest materials	Provide play and rest materials to all public ECDE centers to enhance good health and promote talents to the ECDE learners
ECDE Centers of Excellence	Identity and equip ECDE centres of excellence
Infrastructure development	a) Modernize infrastructure such as:
	a. Construct/renovate and equip classrooms and offices in
	all wards
	b. Provision of child-friendly furniture
	c. Construction and renovation of child-friendly toilets and
	ablution blocks
	d. Fencing of ECDE centres
	, ,
	agencies, UNICEF, UNDP, and financial institutions such as
	the World Bank and Africa Development Bank
	c) Education infrastructure to provide for reasonable
	accommodation of PWDs in its universal design;
	Equip schools to accommodate leaners with disabilities through
	provision of lifts, ramps, sign language interpreters, etc.
Intervention	Enhance the scholarship program to bright and needy students in
Scholarship program	our primary schools, the best three KCPE students per school, and
	the 1st semester university students from Murang'a county day
	secondary schools

3.9.3. Talents, Innovation and Local Industry

Talents and innovation is about identifying and nurturing talents, identifying and developing innovative works, in our youth and using them to improve local industry to spur economic growth and improve standards of living. To realize this, the Murang'a County Government, through the Department of Education, wishes to establish a talent academy for the youth.

Sub Sector Vision, Mission and Goals

Vision:

To be a globally competitive in education, training, research and innovation for sustainable development

Mission:

To provide a conducive training environment for the development of values, skills, attitude, and knowledge

Goal:

To develop talents and innovative works and promote industry.

Table 3.72.: Talents, Innovation and Local Industry Sector Priorities and strategies

Sector Priorities	Strategies
Talent	a) Conduct youth talent search through; Talent shows, exhibitions, and
development	displays
	b) Organize festivals from the ward level
	c) Identification and nurturing of Talents
	d) Establish Talent Academy through rehabilitation of existing
	infrastructure and doing new construction
	e) Training, workshops and Seminars with fully equipped music,
	recording studio, music halts
	f) Linkages, collaborations and networking with related departments
	and stakeholders
	g) Drama theatre gallery, swimming pool and ICT hub
	h) Capacity building on the training offered.
	i) Talent shows and Music Extravaganza
	j) Provision of necessary equipment's
	k) Nurturing and development of talents e.g., in music, dance and
	drama
Youth	Donations from friendly financial institutions and other partners
empowerment	m) Funding from the county treasury
Promoting	n) Setting up an ICT and information centre hub
innovative works	

Enhance local	0)	Provide guidance on ways to improve industrial growth
industry	p)	Do marketing of products from the identified centers.
	q)	Do value addition through packaging and repackaging

3.10.3.Culture

Sub Sector Vision, Mission and Goals

Vision:

A vibrant society thriving in rich cultural heritage

Mission:

To promote, preserve, revitalize and develop culture

Goal

Promote and preserve cultural heritage and develop talent

Table 3.81.: Culture Sub Sector Priorities and Strategies

Sector Priorities	Strategies
Capacity building of cultural practitioners	 a) Prepare policies and legislation to support Creative Economy e.g., on Funding b) Mainstream Creative Economy infrastructure (theatres, music halls, art gallery) into infrastructure development programme c) Mainstream Creative Economy by branding the county e.g., using artists as county ambassadors d) Establish county information portal on arts and crafts industry e) organize workshops and consultative meetings for stake holders in culture
Development of cultural infrastructure	 a) Upgrading/ renovation of Mukurwe wa Nyagathanga heritage site in collaboration with other stakeholders. b) Erect a perimeter wall to secure the centre c) Upgrading the access road to Mukurwe wa Nyagathanga d) Construction of monuments/ statues in honour of our heroes and heroines. e) Renovation of Country club building to a cultural centre status. f) Establish Bildad Kaggia Museum Library, and cultural gallery
Cultural talent development	To organize cultural shows, trade fairs, exhibitions to promote creativity and innovation.
Community Cultural Festivals	a) Plan and hold all-inclusive community cultural festivalsb) Organize and stage Kenya music and Cultural festival at the county and national levels
Mapping cultural sites and monuments.	Identify, map, and document all cultural sites countywide
Documentation and digitization of Indigenous	To involve research assistants, custodians and providers of indigenous knowledge in data collection, preservation,

knowledge, traditional	documentation and digitization.
cultural expression and	
genetic resources

3.11. Water, Irrigation, Environment and Natural Resources

The Sector is composed of Water and Sewerage; Irrigation; and Environment and Natural Resources Directorates

3.11.1. Water and sewerage Sub-sector

Sub sector Vision, Mission and Goals

Vision:

An efficiently well-connected water and sewerage systems

Mission:

To develop and manage water resources and sewerage infrastructure for effective service delivery

Sector Goal(s):

Achieve universal access to affordable, reliable and sustainable water and sewerage services

Table 3.87.: Water and sewerage Sub-sector Sub Sector Priorities and Strategies

Sector Priorities	Strategies	
Increase domestic water supply coverage for better socio-economic development of Murang'a County	 a) Enhance the coordination role of water service providers b) Map out unserved and underserved areas in Murang'a County c) Identify viable water supply sources to cover those areas. d) Plan and design viable projects to meet water demand e) Budgeting and implementation (through the construction of water intake structures, drilling of boreholes, laying of water mainlines, storage tanks and distribution networks for identified projects) f) Enhancing Public-Private Partnerships by encouraging private sector players to invest and participate in water project development activities 	
Improve sewerage services coverage for better socio-economic development of Murang'a County	a) Map out unserved and underserved areas in Murang'a Countyb) Identify viable sewerage construction sites and sewer line routes to serve those areas.	

	 c) Plan and design identified projects to meet the sewerage disposable needs for those areas. d) Budgeting and implementation of identified projects. e) Enhancing Public-Private Partnerships by encouraging private sector players to invest and participate in sewerage project development activities.
Improving domestic water access points to hygienically acceptable levels for reduction/ eradication of water-borne diseases.	 a) Identify all communal water points where access to water is unhygienic. b) Plan and design for suitable water access points/ kiosks. c) Budget and implement identified water access points. d) Enhancing Public-Private Partnerships by encouraging private sector players to invest and participate in upgrading of water points development activities.
Improving domestic water storage capacities to needy communities and institutions	 a) Identify needy communities and institutions for supply of water storage facilities. b) Procure and construct water storage tanks of various capacities for needy communities. c) Enhancing Public-Private Partnerships by encouraging private sector players to invest and participate in construction of water storage facilities.
Providing oversight for all water supply providers within the county for coordinated water service provision	a) Regular monitoring and evaluation of their water supply processes.b) Holding regular consultative meetings.
Rehabilitation and upgrading abandoned or dilapidated domestic water utilities to make them usable and beneficial again	 c) Mapping and identifying all abandoned or dilapidated viable projects for rehabilitation e.g., boreholes. d) Planning, designing and budgeting for rehabilitation works. e) Enhancing Public-Private Partnerships by encouraging private sector players to invest and participate in water projects rehabilitation works.
Promoting use of modern technologies for better and efficient water services delivery	 a) Identifying technological gaps to be addressed e.g., installation of solar power systems, digital metering, water bottling etc. b) Enhancing Public-Private Partnerships by encouraging private sector players to invest and participate in new technology development.
Mitigating effects of climate change	 a) Water conservation efforts such as planting trees in water catchment areas b) Reduction of water wastage through modern technology measures. c) Capacity building of water stakeholders on climate change mitigation measures
Gender mainstreaming and involvement of youth,	a) Involving them in project development and management.b) Capacity building in domestic water use, conservation and

women and physically challenged people in project implementation and management.	recycling.
Promote water harvesting and storage	Water harvesting
Water master plan formulation	Develop a Murang'a water master plan

Table 3.88.: Water and sewerage Sub-sector Sub Sector Programmes

Sub- Programme	Key Output	Key performance indicators	Baseline (Current Status)		argets and Budget (Ksh.
				Target	Cost (Kshs. M)
Programme 1: A	dministration, Planning	and Support Services			
Objective: To e	nhance coordination, eff	iciency and service deliv	ery		
Outcome: Enha	nced customer satisfactio	n			
Administration	Vehicles Procured	No. of vehicles		2	12
Services		procured and maintained			
	Salaries and Allowances	No. of Staff on Payroll		Factored in HR	
	Construction of new office building	No. of offices constructed		1	3
	Well-equipped administrative water offices	No. of administrative water offices well equipped		9	3
	Procured survey equipment, water quality monitoring equipment	No. of survey equipment/ water surveillance sets procured		4	4.5
	Procurement of office stationery	No. of offices supplied with stationery		9	2
Personnel Services	Trained staff	No. of staff trainings held		4	4
	Promoted staff	No. of staff promoted		20	0.8

3.11.2. Irrigation, Drainage and Water Storage Sub-sector

Vision, Mission and Goals

Vision:

Irrigation, drainage and water storage service provider of choice.

Mission:

To provide quality Irrigation, Drainage and Water storage technical services fairly and efficiently.

Sector Goal(s):

- a) To increase utilization of land through irrigation.
- b) To mobilize and promote efficient utilization of resources.
- c) To strengthen institutional capacity.
- d) To promote participation of various stakeholders in planning, implementation and management of irrigation
- e) To mainstream governance, HIV/AIDS and gender in irrigation schemes.
- f) To provide monitoring and evaluation.

Table 3.91.: Irrigation, Drainage and Water Storage Sub Sector Priorities and Strategies

Priority	Strategy
Increase area under irrigation	 a) Identify new irrigation schemes where community has expressed need. b) Conducting feasibility studies to determine the technical and socioeconomic viability of schemes. c) Survey, plan and design the identified irrigation schemes. d) Budgeting and implementation through intake construction, laying of pipelines and distribution network. e) Enhancing Public-Private Partnerships by encouraging private sector players to invest and participate in irrigation.
Development of water harvesting and storage infrastructure for irrigation.	 a) Mapping areas for construction of irrigation storage facilities e.g., dams, water pans and water tanks. b) Plan and design irrigation water storage facilities. c) Construction of the required storage facilities. d) Enhancing Public-Private Partnerships by encouraging private sector players to invest and participate in irrigation.
Enhancing ownership by the beneficiaries for schemes sustainability	 a) Involving beneficiaries and other stakeholders in all irrigation schemes development stages e.g., initiation, planning & design, implementation and monitoring and evaluation. b) Training of irrigation schemes management committees on leadership skills, record keeping and basic financial management c) Benchmarking tours of other well managed irrigation schemes. d) Establishment and legalization of Irrigation Water Users' Associations (IWUAs) at scheme level to oversee water use and equitable

	distribution, undertake operation and maintenance, and resolve conflicts.
Capacity building for sustainable management of developed irrigation schemes	 a) Enhancing farmer education and awareness, and improving communication and information flow. b) Enhancing compliance with environmental, statutory and legal requirements c) Training on efficient utilization and management of irrigation water. d) Improving irrigation technology such as the use of solar energy and other renewable energy in pumping. e) Assisting the irrigation farmers in market identification. f) Enhancing Public-Private Partnerships by encouraging private sector players to invest and participate in irrigation.
Rehabilitation and upgrading of existing under-utilized irrigation systems.	a) Mapping areas for rehabilitation and upgrading of irrigation structures.b) Plan, design and budget for rehabilitation works.
Adopting modern irrigation technologies	 a) Adopting new irrigation technologies such as the use of solar energy and other renewable energy in pumping. b) Training irrigation water users on emerging new technologies such as use of pipe detectors & underground pipe leakages c) Partnering with manufacturers in on-farm demonstrations for the new technologies
Gender mainstreaming and involvement of youth, women and physically challenged people in irrigation development and management.	a) Involving them in irrigation schemes development and management. b) Capacity building in irrigation emerging issues.
Mitigating effects of climate change and disaster management	 a) Enhancing compliance with environmental, statutory and legal requirements b) Construction of small dams and water pans to collect flood water flows. c) Use of climate smart agriculture by use of water conserving irrigation methods such as drip irrigation, digging of terraces, planting water friendly trees along the river banks.

3.11.3. Environment and Natural Resources

Sector Vision, Mission and Goals

Vision

A clean, secured and sustainably managed environment and natural resource conducive to county prosperity

Mission

To promote, monitor, conserve, protect and sustainably manage the environment and natural resources for county development

Sector/subsector Goal

To ensure sustainable exploitation, utilization, management and conservation of the environment and natural resources.

Sector Priorities and Strategies

Table 3.95.: Environment and Natural Resources Sub Sector Priorities and Strategies

Sector Priorities	Strategies
Enhance environmental planning	 a) Strengthen the environmental planning and coordination committee b) Develop a county-based environmental policy, legislation and regulations for mainstreaming environment into development c) Build capacity for environmental planning d) Support mainstreaming on environmental planning.
Efficient waste management mechanisms	 a) Lease/procure waste collection vehicles b) Mounting of litter bins c) Construction of refuse chambers d) Improvement of waste disposal sites e) Provision of waste collection tools f) Development of solid waste laws g) Provision of PPEs for casual workers in the department h) Construction and operationalization of sanitary land fill. i) Preparation of policies, legislation and regulations on waste management
Prevention of noise and air pollution	a) Acquisition of noise metersb) Preparation of policies, legislation and regulations on noise control
To increase farm forest cover	a) Establishment of tree nurseriesb) Procure and distribute tree seedlingsc) Preparation of policies, legislation and regulations on forestry
To rehabilitate degraded sites	 a) Identification and mapping of degraded sites and landscapes b) Rehabilitation of degraded sites and landscapes c) Water catchment areas protection

Promotion of clean energy		Promotion of commercial agro-forestry for wood fuel (firewood and charcoal) Promotion of energy saving technologies e.g., jikos and kilns
Integrate climate change measures into county policies strategies and planning	a)	Development of climate change policy and action plans
Capacity building on environmental issues	-	Sensitization of the public on environmental issues Staff training on short courses and emerging issues
Promotion economic valuation of county's natural capital	a) b)	Identify and assess major landscape degradation for restoration Identify natural capital resources for valuation

3.12. County Assembly

3.12.1. Key Roles

The County Assembly is one of the two arms of the County government with the other being the County executive. The Assembly is constitutionally mandated to undertake the legislative oversight and representation role on behalf of the County. In the discharge of its Constitutional mandate, the Assembly is comprised of elected and nominated members of the County Assembly incorporating gender, youth and persons with disability. These members are ideally assisted by a team of competent professionals and qualified personnel led by the Assembly Clerk while the overall leader of the Assembly is the speaker to whom the Clerk is answerable. Whilst the Assembly is an arm of the County government, it is distinct and independent from the executive and enjoys autonomy in the execution of its mandate and management of its affairs.

The overall supervision and conduct of the Assembly as well as ownership of its property and policy direction overview is undertaken by the County Assembly Service Board chaired by the Speaker. The board is equally mandated to implement the several circulars from the various commissions that coordinate the functions of County government such as the Salary and Remuneration Commission (SRC) and the Commission on Revenue Allocation (CRA).

3.12.2. Sub Sector Priorities and Strategies

Chapter 11 of the Constitution's Article 185 specifies the County Assembly's authority. The

the speaker, who is an elected official, and the 35 elected and 14 nominated members of the

ex-officio participant.

The County Assembly's members play the following roles:

- a) Representation of the electorate
- b) Examine and accept candidates for County public office appointments in accordance with the 2012's County Government Act No. 17
- c) Legislative role as contemplated in Article 220(2) of the constitution, guided by Articles 201
- d) and 203 of the constitution
- e) In accordance with Article 207, they approve the county government's budget and expenditures.
- f) Oversight over the county executive committee and any other county executive organs.
- g) Accept the County government's borrowing in accordance with Article 212 of the Constitution and County planning for development.

302

h) Article 220(2) of the constitution's legislative role, as envisioned by Articles 201

and 202 see Article 203 of the Constitution.

Table 3.98.: County Assembly Sub Sector Priorities and Strategies

Sector Priorities	Strategies
Develop County	Drafting legislation while consulting the County Department
Legislation	Building County Assembly Members' skills in governance, law-making, and representation

3.14. Payments of Grants, Benefits and Subsidies

The following are the proposed grants, benefits and subsidies proposed to be issued to the county residents

Table 3.100.: Payment of Grants, Benefits and Subsidies

Type of payment (e.g., Education bursary, Biashara fund etc.)	Amount (Kshs. M)	Beneficiary	Purpose
Agricultural Inputs Subsidy	60	30,000 Farmers	30,000 Farmers supported with 60MT agriculture inputs (Pulse seeds Assorted, Vegetable seeds)
Mango Farmers Subsidy	100	10,000 mango farmers	10,000 mango farmers provided subsidy of 5 shillings per kg sold to contracted processors
Avocado, Banana, macadamia upgrading sub programme	50	Avocado, Banana, macadamia farmers	
Support to industrial/oil crops soyabeans, sunflower.	10	Industrial/oil crops farmers	
Dairy subsidy	180	Dairy farmers	
ECDE feeding programme	40	41,376 ECDE learners	Lunch feeding program in all ECD centers
Education Scholarships	100	4700 bright and needy students	
KangataCare NHIF Health fund	330	40,000 HH covered	

CHAPTER FOUR

4. RESOURCE REQUIREMENTS

3.3. Introduction

This section presents a summary of resource requirements by sector and programme and discusses methods for closing the revenue gap for the plan period, including but not limited to methods for increasing revenue generation, resource sharing with the national government, and methods for securing external funding, among others. It also details the adopted mechanisms to respond to the changes in the financial and economic environment.

3.4. Resource Requirement

3.4.1. Revenue Projections

The County's sources of revenue include: equitable share, conditional grants from development partners, conditional allocations from loans and grants from the Government of Kenya, own source revenue, public private partnerships as well as financial and in-kind contributions from the members of the public. The following provides the projected revenue for the county: equitable share (KES 7.898 billion); conditional grants (GoK) (KES 0.19 billion); conditional grants from development partners (KES 1.0628 billion); and own source revenue (KES 0.9 billion). Thus, the total expected revenue for the County will be KES 10.051 billion for the plan period as shown in Table 4.2.

Table 4.1.: Revenue Projections for FY 2023/2024

Type of Revenue	Base year 2022/23	FY 2023/24
Equitable share	7,180,156,000	7,898,171,440.50
Conditional grants (GOK)	173,436,000	190,780,000
Conditional Grants (Development Partners)	966,191,000	1,062,810,000

3.4.2. Resource Requirement by Sector and Programme

The total resource requirement for the proposed programmes and projects for the financial year 2023/24 is estimated at KES 13.959 billion as shown in Table 4.1. The public Administration and ICT sector is estimated to utilize the biggest chunk of the resources estimated at KES 5.415 billion. This budget is inclusive of all the staff salaries for all the departments amounting to KES 4.20 billion. It is followed by Health and Sanitation with estimated budget of KES 2.352 billion. Agriculture, Livestock and Fisheries come in third with an estimated resource requirement of KES 1.237 billion.

3.4.3. Estimated Resource Gap

The estimated resource requirement for the financial year is KES 13.959 billion against the estimated resource revenue of KES 10.051 billion creating a resource gap of KES 3.908 billion. The resource gaps will require a special consideration to ensure appropriate strategies are developed and actualized for effective delivery of projects and programmes.

Resource Mobilization and Management Strategies

For effective implementation of the ADP (2023-2024), the County resource mobilization strategies will be both internal and external. The internal strategy focuses on enhancing the county own source revenue while the external strategy shifts the attention towards engaging external partners to finance implementation. The external strategy involves deepening engagement with bilateral and multilateral agencies, public private partnerships, private foundations and diaspora engagement as well as county community contributions. The county will leverage on PPPs provided for in PPPs Act, 2021 as source of financing of planned projects including infrastructure development. The county will create a Resource Mobilization Unit under Finance and Economic Planning Department to undertake the resource mobilization and management roles. The Unit will be responsible for development of bankable projects for resource mobilization.

Internal Strategies

The county will work closely with the national government in the implementation of priorities programme and projects toward realization of the bottom-up economic model e.g., affordable housing and public transport. Through public private partnerships, the county will endeavour to harness efficiencies and expertise that the private sector presents to the delivery of certain facilities. Further, the county will mobilize resources through public private partnership to fund infrastructural development. The county will also establish a public private partnership framework to guide engagement with the private sector. The county will also identify a number of infrastructural programmes for engaging the private sector.

External Strategies

The external resource mobilisation strategies among others will be developing funding proposals targeting specific thematic areas for collaboration with development partners. Suitable county specific policies will be developed, reviewed, and enforced to ensure that the county administration creates an enabling environment for social economic growth. The policies developed aim at increasing more resources towards development programmes, enhancing revenue mobilization through expansion of the e-revenue scope, enforcement, identification of new revenue streams and improvement of services;

expenditure rationalization; expenditure efficiency and effective implementation of budget programs and training. The Monitoring, Evaluation, Learning and Reporting Unit will play a pivotal role.

The county will build partnerships with bilateral & multilateral agencies and financial institution in the delivery of the third ADP (2023-2024). The Resource Mobilization Unit will develop a clear framework mapping all Public Benefit Organizations and Non-Governmental Organizations clearly describing their respective thematic and geographical areas for engagement and coordination of partners working within the County to avoid duplication of efforts. In addition, the County Government will develop a clear investment policy highlighting key investment advantages that the County offers being within the Nairobi Metropolitan Region. The policy will ensure the mutual benefit of both County residents and the investors as well as the ease of doing business is realized.

The efficient use of available financial resources will be monitored through the Monitoring, Learning and Reporting system. This is a functional responsibility of the Economic Planning Directorate and will evaluate Country Fiscal Strategy Papers (CFSP) to ensure conformity with the objectives of the ADP (2023-2024). In addition, the County Debt Management Strategy Paper will guide in ensuring that debt levels remain affordable and sustainable. Deficit financing will be geared towards funding the priority development initiatives identified in the ADP that will stimulate growth and development of the County.

3.5. Financial and Economic Environment

The County Treasury shall build on the lessons gained in the previous year to enhance on resource mobilisation strategies among others will be developing funding proposals targeting specific thematic areas for collaboration with development partners. Suitable county specific policies will be developed, reviewed, and enforced to ensure that the county administration creates an enabling environment for social economic growth. The policies developed aim at increasing more resources towards development programmes, enhancing revenue mobilization through expansion of the e-revenue scope, enforcement, identification of new revenue streams and improvement of services; expenditure rationalization; expenditure efficiency and effective implementation of budget programs and training.

CHAPTER FIVE

4. MONITORING AND EVALUATION

4.1. Chapter Overview

The chapter explains how projects and programmes to be implemented during the plan period will be monitored and evaluated. It also outlines verifiable indicators that will be used to monitor the progress of implementation of projects and programmes.

4.2. Monitoring

Data must be gathered and analyzed as part of monitoring in order to ascertain whether the scheduled actions have been completed. The monitoring of the entire process—from planning to designing to execution—is crucial because it keeps planned activities under control, cuts down on duplication and waste, enables the deployment of corrective actions, and guarantees that projects and programs are completed on schedule.

Monitoring and Evaluation exercise will carry out by the department of Economic Planning. Monitoring and Evaluation Unit will keep track of how well projects and programs are being carried out. The unit will monitor and assess quarterly the status of the execution of scheduled projects and create reports for distribution to the appropriate persons for action.

4.3. Evaluation

Evaluation entails checking the impacts the project/Programme activities have had on the community. By determining the degree of short- to medium-term results and long-term impacts accomplished, the intended and unforeseen consequences of these accomplishments, and the ways that are working and those that are not, it expands on the monitoring process. At the conclusion of the plan period, an evaluation will be conducted to determine the degree of program implementation and goal achievement.

4.4. County Monitoring, Evaluation, Learning and Reporting (MERL) Framework

Tracking the implementation of Murang'a County Annual Development Plan (CADP) 2023/2024 will be premised on the County Integrated Monitoring and Evaluation System (CIMES) as shown in Figure 6. The CIMES shall be linked to the county performance management system which is involved in strategic planning, work planning, target-setting, tracking performance and reporting.

The County M&E Committees and Fora will comprise of:

A. County Assembly Committee responsible for finance and planning which comprises of the County Assembly members which will receive the County M&E reports, review

- and present to the County Assembly for approval. The Committee will meet as per the County Assembly calendar.
- B. County Intergovernmental Forum will be chaired by the Governor or Deputy Governor in Governor's absence, or member of Executive Committee Member nominated by the Governor (as per the IGRA 2012). The Forum is convened by the County Executive Committee Member responsible for Finance and Planning and draws membership from the Heads of National Government departments at County level and the County Executive Committee Members. The Forum receives, review and endorse M&E reports from the County Monitoring and Evaluation Committee (COMEC) and presents the reports to the County Assembly Committee responsible for Finance and Planning. The Forum also gives policy directions on M&E at the County level.
- C. County M&E Committee (CoMEC) will be co-chaired by the County Secretary and Senior representative of the National Government nominated by the County Commissioner. The Convenor will be the Chief Officer responsible for Economic Planning and draws membership from heads of technical departments of the National Government at the County level, County Chief Officers, County Assembly Clerk, Court Registrar, Representative from devolved funds and technical representative managing all other non-devolved funds in the County. The Committee oversees delivery, quality and timeliness of reports and submission to NIMES, CIF, CoG, Constitutional offices and other relevant offices.
- D. Technical Oversight Committees (TOC) is chaired by the Chief Officer responsible for Economic Planning. The Convenor is the Director in charge of M&E and draws membership from the technical officers versed in M&E from the County technical departments. The Committee identifies, commission and manage evaluations besides setting strategic direction for M&E.
- E. Sector Monitoring and Evaluation Committees (SMEC) will be convened by the relevant Chief Officer of the Sector. It will be co-chaired between Chief Officer of relevant sector and director from relevant department of National Government at the County level. It is convened. The membership is composed of relevant sector County Chief Officers, equivalent national government departments and CSOs. The SMEC will undertake sector M&E reporting, developing sector indicators and undertaking sector evaluations. The SMEC submits M&E reports to the TOC
- F. Sub County Monitoring and Evaluation Committee (SCoMEC) will be convened by the Sub County M&E Officer. The Committee will be co-chaired by the Sub County

Administrator and the Deputy County Commissioner with membership from HoDs at the Sub County level. The committee will responsible for producing sub county reports for presentation to the TOC.

G. Other lower-level committees will include Ward Monitoring and Evaluation Committee (Ward MEC) at the ward level and the Village Monitoring and Evaluation Committee (Village MEC) at the village level. The committees will provide M&E reports at the ward level and village level respectively.

Day to day administrative data, field reports, surveys and other audit reports will form the inputs to the CIMES with the data generated, collated and analysed by the Monitoring and Evaluation Directorate in close collaboration with departmental M&E Champions providing the secretarial services. The CIMES framework will establish a platform that;

- Demonstrate whether the resources spent on implementing CIDP investment programmes are leading to the intended outcomes, impacts and benefits for the county citizenry.
- Provide feedback mechanism that regularly provide county with good quality and timely monitoring and evaluation information regarding implementation progress of development projects/programmes.
- Produce cumulative quarterly M&E reports
- Produce annual progress reports on implementation of CIDP and ADP AND indicating the status of implementation of all development projects, service delivery and budget performances for all sectors.
- Disseminates reports and results of M&E in a timely manner to all stakeholders for effective decision making

 Adequately facilitates and prioritizes monitoring and evaluation units within the sectors and through sufficient budgetary allocation in order to allow for effective and efficient delivery of M&E reports

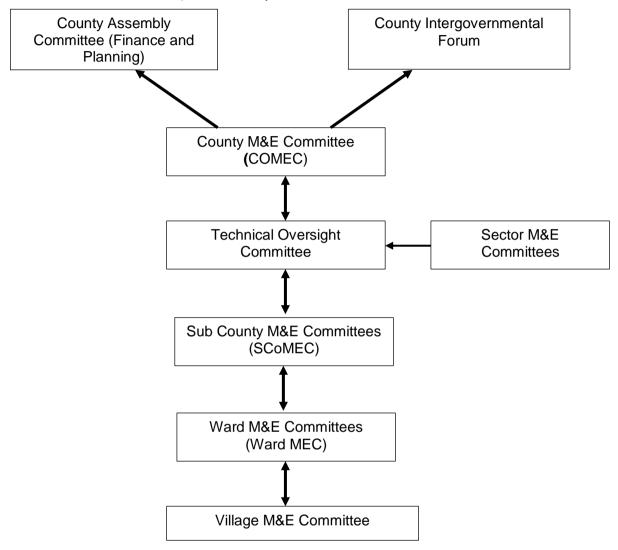

Figure 4.1.: County Monitoring and Evaluation System (CIMES)

4.5. MELR Capacity and Reporting Strategies

For the CADP to be effectively implemented, MELR shall be coordinated by the MELR Unit. However, the overall responsibility of overseeing and managing the monitoring and evaluation of the CIDP will be on the CECM, Finance and Economic Planning. The MELR Unit will work closely with the CIMES Committees and shall advice the CECM to ensure that strategies are being implemented, performance is being measured, progress reports are prepared and discussed, and corrective action is taken where necessary.

Respective Departments shall be accountable for the completion of stated tasks in the CADP. Where necessary, the MELR Unit. will help build and develop their capacities to undertake MELR activities. The CADP targets will be translated to Departmental Annual Work Plans which will enable the department to understand, identify their roles and be fully involved in strategy implementation. The MELR Unit will aim at ensuring that detailed work plans with clear performance indicators and responsibility for their achievement are developed taking into consideration the prioritized activities in the County Annual Development Plan as derived the CIDP. The CIMES Committee (COMEC) shall coordinate with departments in cases of joint activities.

4.6. Monitoring and Evaluation Matrix

The monitoring and evaluation performance indicators and targets for the CADP 2023/2024 are summarized in the Results Matrix Table 5.1.:

Table 4.1.: Monitoring and Evaluation Matrix

Sub Programme	Output	Performance Indicator	Definition (Calculation)	Baseline	Target	Data Source	Frequency of Monitoring	Responsible Agency	Reporting Frequency
Programme 1:									
Objective									
Outcome									
Sub Program1:									

4.7. Data Collection, Analysis and Reporting

The County department of Economic Planning officials, along with pertinent technical officers from the implementing department and public works staff, if needed, will carry out the monitoring and assessment exercise. Physical observation of the projects and programs being carried out will be required for the exercise, together with the actual verification of delivered items where appropriate and a survey of stakeholders to determine the impact of the projects and programs. The data from the Monitoring and Evaluation will be analysed, and reports will be written and submitted to the Governor for his information and consideration of next steps. These summaries of the period's accomplishments, flaws, difficulties, and recommendations will be included. The reports must be kept both electronically and manually in the manual files as backups. All implementation status updates will be published on the county's official website. During the field exercise, data will be collected using the tools listed in the annexes.

4.7.1. Dissemination and Feedback Mechanism

To effectively disseminate, get feedback, and engage citizens in MELR processes, the following will be undertaken:

- a) Monthly Review Meetings at the departmental level will be scheduled to ensure implementation is on track;
- b) Quarterly Review Meetings for MELR will be scheduled to get and give feedback on the pertinent performance indicators;
- c) The overall oversight of the CADP and its implementation shall remain the principal role of the MELR Unit within the department of Economic Planning. Therefore, progress reporting will be an Agenda Item in all quarterly meetings;
- d) A Strategy Review Workshop for all Departmental MELR Officers will be held annually to evaluate the impact of operational plans at both operational and strategic levels.
- e) MELR will be an integral part of Departmental staff performance Management system and will be linked to annual staff appraisal

4.7.2. Citizen Engagement, Learning and Reporting

The Constitution requires citizens to be supplied with information. Citizens will therefore be involved in the design, implementation and use of findings of M&E activities. Reporting the progress of implementation will be critical in adjusting strategic directions and measuring performance. The reports shall be as follows:

- a) Monthly Reports
- b) Quarterly report
- c) Biannual
- d) Annual Report
